

Project Status Update

As of December 19, 2025

NVTA reports monthly the status of projects funded through the Regional Revenue (70%) Fund. Realtime updates can also be found on Novagateway.org

Project Status – Standard Project Agreements (SPAs)

There are a number of projects that received funding for different phases across various funding cycles. This results in the establishment of a SPA (Standard Project Agreement). The stages of a SPA are listed in 5 categories below. While there are a total of 179 SPAs across the different categories, these represent 135 unique projects.

5 Classification Categories and Stages of a SPA

SPA closed out, Project complete:

SPA has been closed out and NVTA funding has completed, and overall project has been completed.

SPA closed out, Project ongoing:

SPA has been closed out and NVTA funding has completed. Overall project is still ongoing.

SPA Executed: SPA has been approved by NVTA.

Appropriated but no SPA yet:

Funding allocation has been appropriated by NVTA, but SPA has not been executed yet. (Note: NVTA appropriates the total approved funding amount at time of appropriation.)

Approved but not appropriated yet: Project Application approved by NVTA, but funding allocation has not been appropriated yet.

Note: NVTA's updates to the Six Year Program (SYP) allocate revenues from two future (outer) fiscal years (e.g., the FY2024-2029 SYP allocated funding for FY2028 and FY2029).

Project Status – Revenue Approved, Appropriated and Reimbursed as of December 19, 2025

NVTA has approved a total of: **\$3,683,182,918**

NVTA has appropriated a total of: **\$2,416,024,959**

NVTA has reimbursed a total of: **\$1,170,396,113**

Status: Approved Amount by Program by Category

5 Classification Categories and Stages of a SPA

- SPA closed out; Project complete
- SPA closed out; Project ongoing
- SPA Executed
- Appropriated but no SPA yet
- Approved but not appropriated yet

Status: Approved Amount versus Actual Reimbursed by Program

Note: SPAs usually request NVTA funds in the outer years of their approved funding period and then continue to drawdown into subsequent fiscal years. (e.g. SPAs in the FY2024-2029 SYP typically begin drawing funds by the end of FY2029, with most not fully utilizing their allocations until FY2032.)
