

IV.

NVTA TransAction 2019 Update:
Tracking Changes in Transportation Attitudes and Priorities
January 2020

Methodology

AUDIENCE

Residents 18 years or older within jurisdiction of Northern Virginia Transportation Authority
n=616

DATES

December 10-27, 2019

MODE

Online Survey

LENGTH

14 minutes

GEOGRAPHY

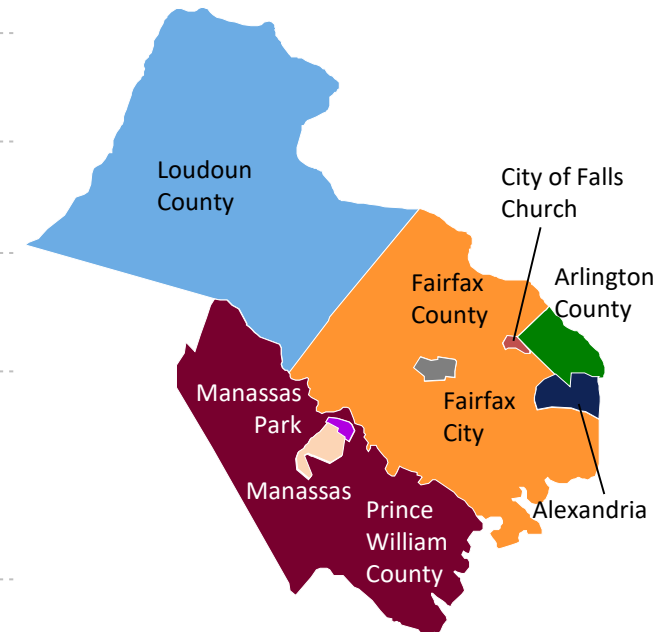

Northern Virginia

Arlington County, Fairfax County, Loudoun County, Prince William County and the Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park

DATA WEIGHTING

2019 data weighted by ethnicity
2016 data weighted by gender and ethnicity
2015 data weighted by ethnicity

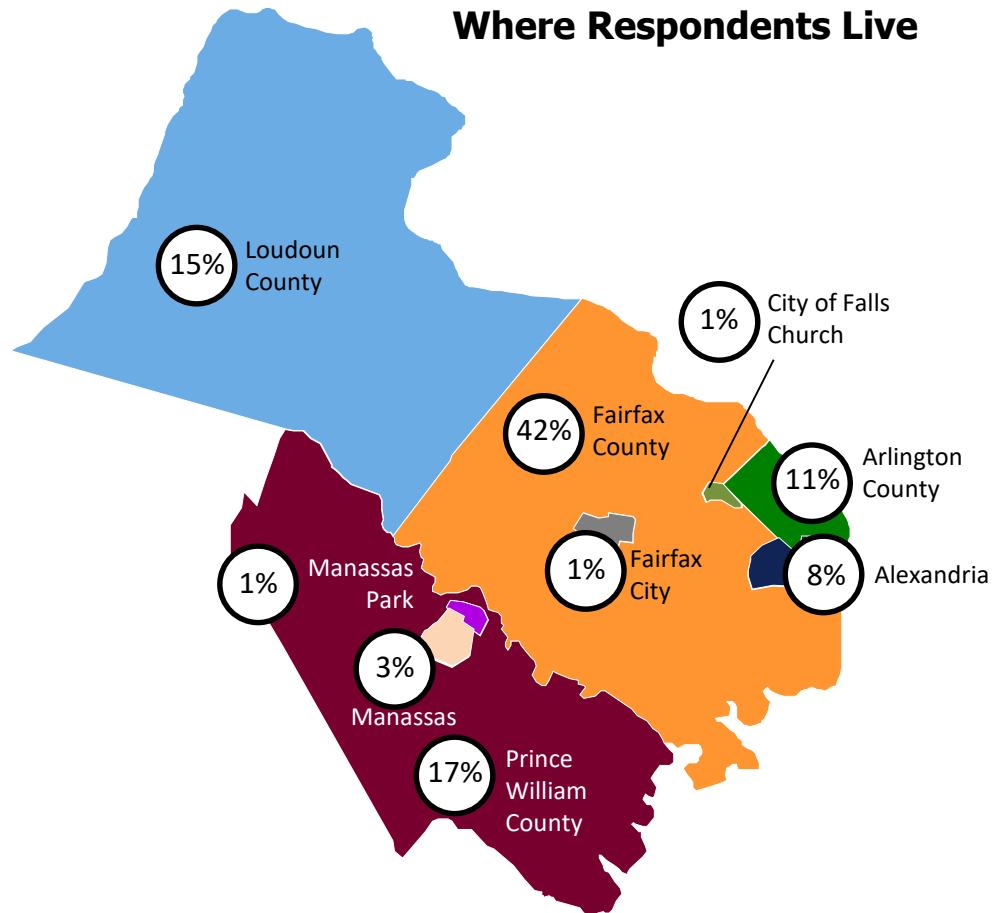

Methodology: Reporting Notes

- Survey Respondent Selection
 - Scientific study using an opt-in online panel.
 - Respondents must be age 18+ and residents of Northern Virginia, more specifically, residents of Arlington County, Fairfax County, Loudoun County, Prince William County, Alexandria, Fairfax City, City of Falls Church, Manassas, and Manassas Park.
 - We aim for an overall representation of regional demographics based on age, gender, and race according to the US Census. We also aim for a proportionate sample that represents each county/city by population size according to the US Census. For the most part we use sample quotas to hit these demographic targets.
- Confidence Interval and Margin of Error
 - All sample surveys and polls, whether or not they use probability sampling, are subject to multiple sources of error which are most often not possible to quantify or estimate. Online opt-in panels such as the one used for this study do not use probability sampling and accordingly the strict calculation of sampling error is not typically done. In the hypothetical case of a perfectly random sample and no response or measurement errors, a sample of this size (n=616) would produce a margin of error of $\pm 3.95\%$ at a 95% confidence interval. Margins of error for subgroups would be higher.
- Ethnicity clarification
 - Black, White, Asian refer to Non-Hispanic Black/White/Asians.
- Statistical Testing Notations
 -  Indicates statistically significant differences between 2016 and 2019 ($p < .05$). When appropriate, the report indicates these differences using green, red, and blue color coding wherein **green = an increase or positive change**; **red = decrease or negative change**; **blue = may be construed as either positive or negative/or just a change that might be of interest**.
 -  () Numbers in parenthesis are of interest but are not statistically significant at $p < .05$ level. When shown these numbers are color coded in the same way as described in prior bullet.

Resident Profile

Where Respondents Live

County/City of Employment	2015	2016	2019
Fairfax County	37%	36%	35%
District of Columbia	18%	12%	11%
Arlington County	11%	11%	12%
Loudoun County	8%	13%	12%
Alexandria	7%	9%	9%
Prince William County	6%	8%	12%
Manassas	4%	2%	2%
Fairfax City	2%	2%	2%

Years of Residency	2015	2016	2019
Less than 1 year	3%	2%	3%
1 to 5 years	19%	16%	17%
6 to 10 years	14%	12%	14%
11 to 15 years	12%	14%	11%
More than 15 years	51%	56%	55%

Own/Rent Home

Own/Rent Home	2015	2016	2019
Own	65%	70%	64%
Rent	32%	26%	31%
Neither	2%	3%	3%
Decline	1%	1%	2%

EXECUTIVE SUMMARY

Executive Summary: Key Highlights

- Overall, since the launch of the benchmark wave*, residents see improving performance from both the region and NVTa.
 - 39% of residents say that the Northern Virginia region's performance is either excellent or good on transportation related issues.
 - A gain of +12 points over time (30% 2016; 27% 2015).
 - 47% of residents say that NVTa's performance is either excellent or good.
 - A gain of +12 points as well from the benchmark wave (34% 2016; 35% 2015).

*Benchmark wave refers to the first wave of the tracker conducted in 2015.

Executive Summary: Overall Landscape

- Northern Virginia residents' interest in transportation issues is still high (Top 3 Box Interest: 74%; Top 3 Box Informed: 61%).
- Impact of transportation on Quality of Life also stays slightly positive overall with an average score of 6 (6/10).
- Concern about traffic congestion on Quality of Life decreases by 7 points to 26% (vs. 33% in 2016) and the focus turns to areas like housing.
 - Traffic congestion is also less influential when choosing where to live (17%) versus where to work (42%).
- Residents also report their normal commute time is 3 minutes faster.
 - However, the average maximum acceptable commuting time stays unchanged.
 - And, there is a slight decline in the number of residents who drive to work.
- A majority now say that the region is doing a mostly “good job” on key transportation priorities impacting Quality of Life (56% 2019; 51% 2016; 43% 2015: A +13-point increase from the benchmark wave).
- The gap between recall of positive and negative news shrinks this wave.
 - Residents are more likely to recall positive news and are much less likely to recall negative news compared to prior waves
 - Social media continues to grow as an information source for regional transportation news at the expense of traditional media (print, radio and TV)
 - Overall, residents' recall of transportation related news stories declines versus prior waves (56% 2019; 68% 2016; 65% 2015).

Executive Summary: Awareness and Performance of Regional Transportation Initiatives and Authorities

Awareness of:

- NVTa remains stable over time (35% 2019; 34% 2016; 33% 2015).
- TransAction also remains relatively stable as it holds on to the gains it made in 2016 (17% 2019; 15% 2016; 8% 2015).
 - TransAction was adopted in 2017 and has been largely dormant/missing from news since, so it is encouraging to see it hold /increase gains.
- A majority (58%) are unaware of any regional bus system initiatives.
 - Among those aware, many only recall one initiative.
- NOVA Rides, a NVTC Initiative, is at 30%.
 - Note: NOVA Rides was heavily promoted through advertising and NVTa/TransAction spends very little on advertising. Thus, the NOVA Rides Initiative experience appears to demonstrate the power of targeted advertising in a relatively short period of time.

Performance on planning and implementing transportation solutions:

- Both the region and NVTa see significant improvements in their performance ratings (see also slide 6).
- Additionally, performance ratings for all regional priorities also improve in 2019 (see next slide).

*New item not asked in prior waves

Executive Summary: Importance & Performance of Regional Priorities

- Performance is improving across all regional transportation priorities, while importance stays either on par or decreases slightly compared to prior waves. Declining Importance plus Improving Performance means the issue(s) are being handled effectively.
 - While there is still much work to be done, residents note significant performance improvements on affordable transportation, using technology to improve efficiencies and safety, investing in new highways and road improvements, and providing new public transportation options.
 - The declining importance of reducing trip times and more predictable trip times may be due to some combination of: The rise in remote work, increased use of ridesharing options, the rise in online shopping, and completion of public transit and roadwork related projects.
 - Not only do residents consider reducing trip times and more predictable trip times of less importance, they also find them less impactful as communication strategies.
- Among potential projects, new/extended metro rail lines top the list.
- When asked about future funding strategies, incentives top the list.
 - Changing motor vehicle taxes and variable pricing for HOT lanes are a distant second.

Executive Summary: Messaging

- In terms of communication, focusing on *reducing travel time(s)* is still the best way to motivate interest and support among residents.
 - However, this message is less impactful today than it was in the benchmark wave (61% in 2019; 69% in 2016; 78% in 2015. A decrease of 17 points).
- When prioritizing investment, residents distribute most funds to roads and rail/transit.
- Residents describe self-driving cars as “scary” or “dangerous,” with a smaller group also categorizing them as “good.”
- While the use of ridesharing services increases to 60% from 45% in 2016, future use appears to be flattening.
- Use of vehicle sharing services (Zipcar/car2go) and Capital Bikeshare also increase from the last wave.
- Almost half (46%) of Northern Virginia residents shop online at least once a week, and a fifth (19%) shop online at least multiple times a week.

A row of orange triangular climbing rings hanging from a blue rope in a gym setting. The rings are made of a smooth, glossy plastic material. The background is blurred, showing other gym equipment and a bright, indoor environment.

KEY FINDINGS

Transportation

SETTING THE STAGE

Interest in transportation issues remains high.

Interest

Issues related to Transportation in Northern Virginia

Informed

Issues related to Transportation in Northern Virginia

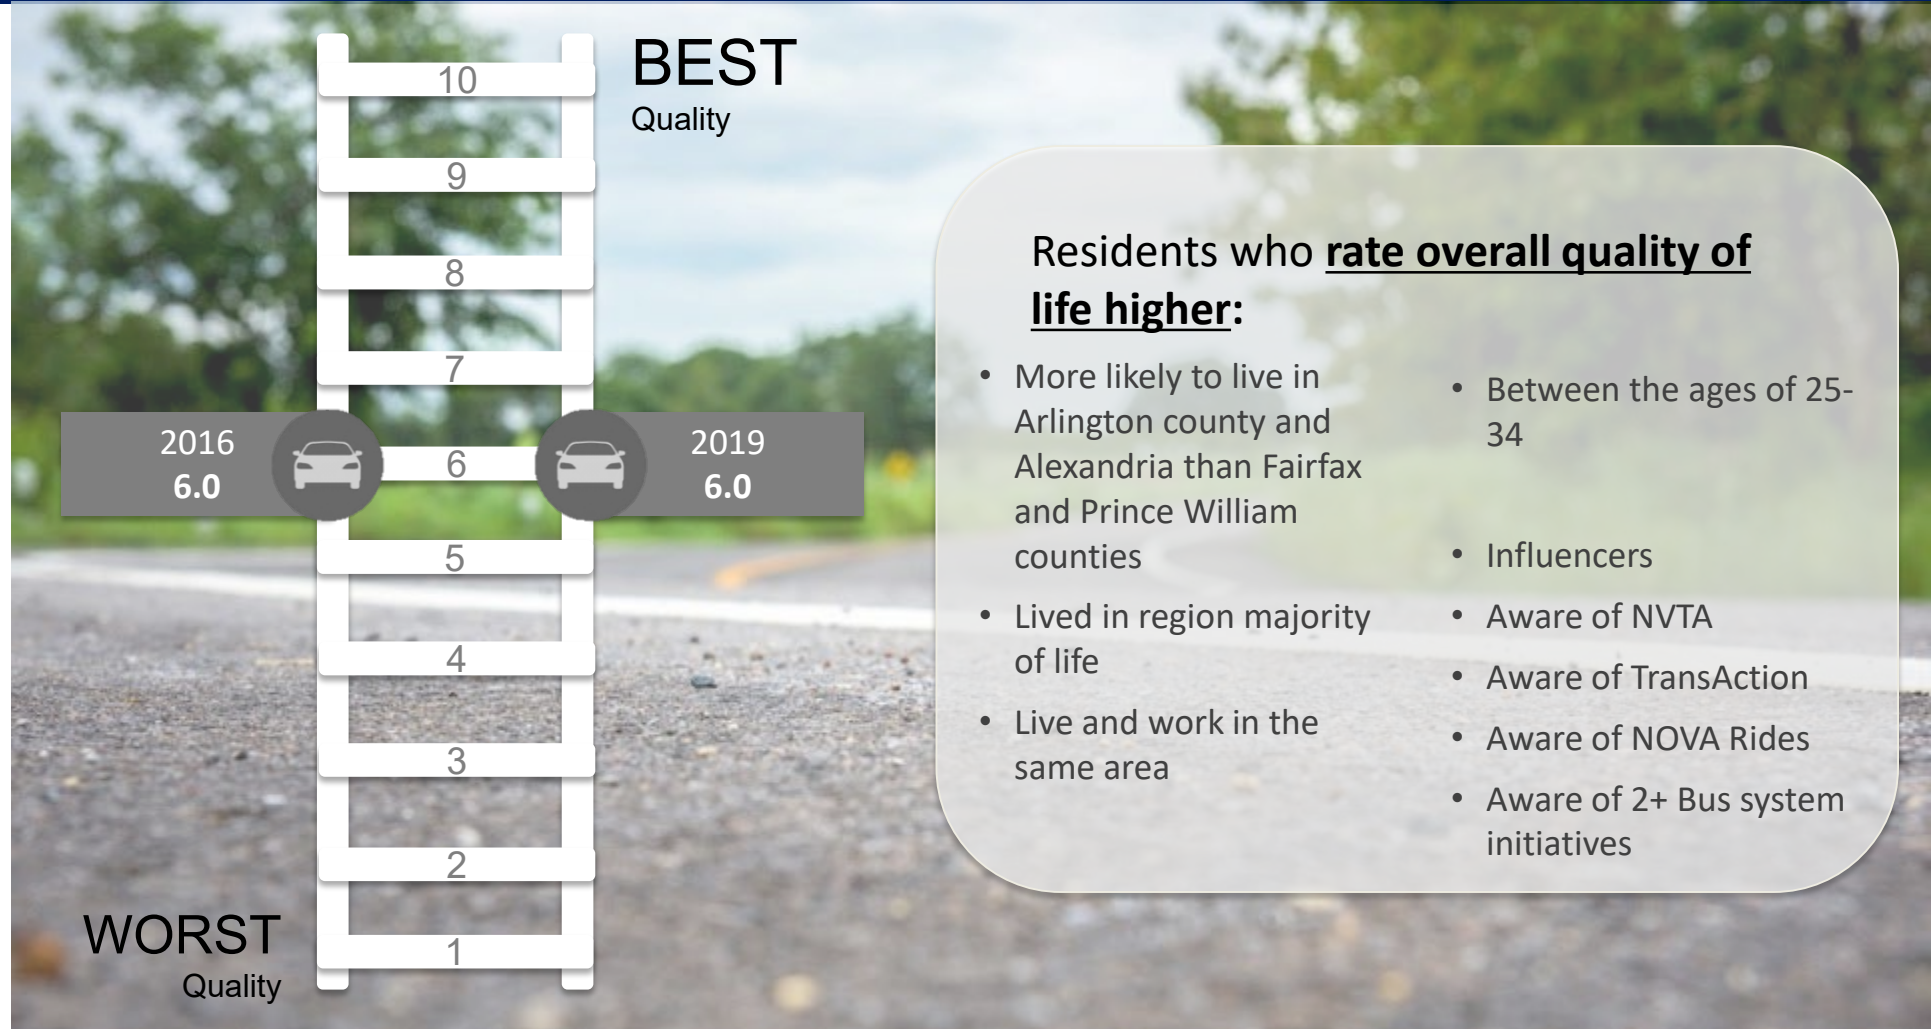

- ### Most Likely to Be Influencers:
- 62% Male
 - 63% HHI \$100k+
 - 57% Work in NoVa
 - 57% College graduate +
 - 58% Married/Living w partner
 - 58% White
- 58% have lived in the region for more than 10 years
 - 59% Home-owners
 - 71% Aware of NVTA
 - 77% Aware of TransAction
 - 68% Heard NoVa transit news recently
 - 73% Aware of NOVA Rides
 - 90% Aware of 3+ bus system initiatives (71% 2+)

BASE: ALL RESPONDENTS (2015 n=610, 2016 n=606, 2019 n=616)
Q200. There are a lot of issues in the news, and it is hard to keep up with them every day. Please indicate how interested you are in issues relating to transportation in the Northern Virginia region (such as roads, traffic, commuting, public transportation, biking, trails, etc.).
Q205. How informed are you about issues relating to transportation in the Northern Virginia region (such as roads, traffic, commuting, public transportation, biking, trails, etc.)?

Denotes statistically significant differences between 2016 and 2019 (p<.05)
() #s in parenthesis are of interest, but are not statistically significant at p<.05 level

Impact of transportation on Quality of Life remains slightly positive overall.

BASE: ALL RESPONDENTS (2015 n=610, 2016 n=606, 2019 n=616)

Q300. Think for a moment about the impact of transportation on your overall quality of life here in Northern Virginia. Imagine a ladder with ten steps representing the "ladder of life." Let's suppose the top of the ladder, the tenth step, represents the best possible life for you from a transportation perspective; and the bottom, the first step, the worst possible life for you from a transportation perspective. On a scale of 1 to 10, on which step of the ladder do you personally stand at the present time?

Residents report their normal commute time is 3 minutes faster.

Impact of Traffic Congestion Levels on Commute Time

% Who drive to work

BASE: ALL RESPONDENTS (2016 n=606, 2019 n=616)

Q580. Do you drive to work?

BASE: DRIVE TO WORK (2016 n=375, 2019 n=362)

Q585. In a vibrant region like Northern Virginia, some level of traffic congestion is inevitable for people who drive to work. Thinking about your regular morning commute trip, please provide an estimated number of minutes for each of the following:

Transportation

AWARENESS LEVELS AND
PERFORMANCE RATINGS FOR
THE REGION AND REGIONAL
AGENCIES

NVTA recall builds on gains from last wave. NOVA Rides recall is almost on par with NVTA recall.

Have you ever heard of...

Both NoVa Region and NVTA performance ratings increase significantly.

Performance on Planning and Implementing Transportation Solutions

A majority are unaware of any bus system initiatives. Among those aware, many only recall one initiative.

Awareness of Bus System Initiatives

Transportation PERSONAL VALUES

As concerns about traffic congestion decrease, focus turns to areas like housing.

Significant Impact on Quality of Life

When looking across groups, reducing traffic congestion is more important to (2019):

- Ages 55+
- Men
- Fairfax County residents
- White residents
- Those who have lived in region for 15+ years
- On average, have slightly higher commuting times
- Want higher spend on roads
- HHI \$100k+
- Home-owners
- Influencers

Improving housing affordability is more imp. to (2019):

- Those who have lived in the region for < 10 years
- Ages 18-35
- Women
- Hispanic and Black residents
- Single
- Residents who are more likely to be high school graduates and/or have some college education
- Employed part-time
- HHI < \$50k
- Want higher spend on incentivizing less driving at peak times
- Much more likely to be using ridesharing services and scooters

BASE: ALL RESPONDENTS (2016 n=606, 2019 n=616)

Q156. People in different regions of the country mention many factors that contribute to their quality of life. Thinking about the quality of life specifically in the Northern Virginia region, please identify which one of the following factors has the most significant impact on the overall quality of life for you personally.

Denotes statistically significant differences between 2016 and 2019 (p<.05)

Decline of traffic congestion on Quality of Life continues: Indicating the issue is being handled well.

Biggest Impact on One's Quality of Life

BASE: ALL RESPONDENTS (2015 n=610, 2016 n=606, 2019 n=616)

Q520. Northern Virginia residents and workers have mentioned different factors relating to transportation—both positive and negative—that contribute to or detract from their quality of life. Thinking about transportation here in this region and your personal quality of life, please identify which one of the following you feel has the biggest impact on you and your family personally?

Denotes statistically significant differences between 2016 and 2019 (p<.05)

NVTA's
TransAction

Traffic flow and congestion matter most to those who work outside of NoVa and those who are more affluent.

Biggest Impact on Your Quality of Life – Subgroup Analysis

Traffic Flow and Congestion (47%)

- 63% Work outside of NOVA (64% Work in DC)
- 53% Live and work in a different county/city
- 51% Lived in region for 15+ years
- 56% HHI \$100k+
- 52% College grad+
- 58% Ages 55+
- 54% White
- 55% Divorced/Separated/Widowed
- 52% No children at home
- 52% Heard NoVa transit news recently

Transportation Options (21%)

- 32% Arlington County
- 25% Don't drive to work
- 25% HHI \$50k to \$99k
- 26% Unemployed
- 31% Black
- 25% Children at home
- 26% Renters
- 26% Aware of NVTA
- 31% Aware of TransAction

Convenient Access (17%)

- 27% Lived in region for 6-10 years
- 25% HHI <\$50k
- 35% High school education or less
- 29% Ages 18-24
- 22% Hispanic
- 26% Asian
- 23% Single
- 21% Children at home
- 20% Drive to work
- 21% Non-Influencer
- 21% Haven't heard NoVa transit news recently

Transportation Infrastructure (16%)

- 23% Some College
- 22% Aware of TransAction
- 21% Heard NoVa transit news recently

Residents focus on essentials like safety, affordability, opportunity, and ease of commuting when considering where to live or work. “Social” opps and walkable communities are secondary.

Factors Influencing Where to Live / Work

Transportation REGIONAL VALUES

A majority (56%) say the region is doing a mostly “good job” across key priorities. This is a significant jump of +13 points since the benchmark wave.

Region is Doing a Mostly “Good Job” on Top Priorities
(Total Respondents)

BASE: ALL RESPONDENTS (2015 n=610, 2016 n=606, 2019 n=616)
Q530. Currently, when it comes to the number and variety of transportation options, do you feel that the region is doing a good job or a bad job?
Q540. Currently, when it comes to the maintenance and quality of the transportation infrastructure do you feel that the region is doing a good job or a bad job?
Q550. Currently, when it comes to convenient access to work, shopping, restaurants, schools and services, do you that like the region is doing a good job or a bad job?
Q560. Currently, when it comes to improving traffic flow and reducing congestion, do you feel that the region is doing a good job or a bad job?

Number of residents saying the region is doing a mostly “good job” at managing congestion continues to grow.

27 BASE: ALL RESPONDENTS (2015 n=610, 2016 n=606, 2019 n=616). Q520. Northern Virginia residents and workers have mentioned different factors relating to transportation—both positive and negative—that contribute to or detract from their quality of life. Thinking about transportation here in this region and your personal quality of life, please identify which one of the following you feel has the biggest impact on you and your family personally? BASE: AMONG THOSE SELECTING EACH - TRANSPORTATION OPTIONS (2015 n=76, 2016 n=97, 2019 n=122); TRANSPORTATION INFRASTRUCTURE (2015 n=85, 2016 n=101, 2019 n=97) CONVENIENT ACCESS (2015 n=84, 2016 n=71, 2019 n=97) TRAFFIC CONGESTION (2015 n=365, 2016 n=337, 2019 n=288). Q530-Q560. Currently, when it comes to [ANSWER FROM Q520], do you feel that the region is doing a good job or a bad job?

△ Denotes statistically significant differences between 2016 and 2019 (p<.05)

Performance is improving across all priorities.

Importance either declines or remains stable for all priorities ...

Importance Over Time of Regional Transportation Priorities*

*% rating each 8-10 on 10-pt scale

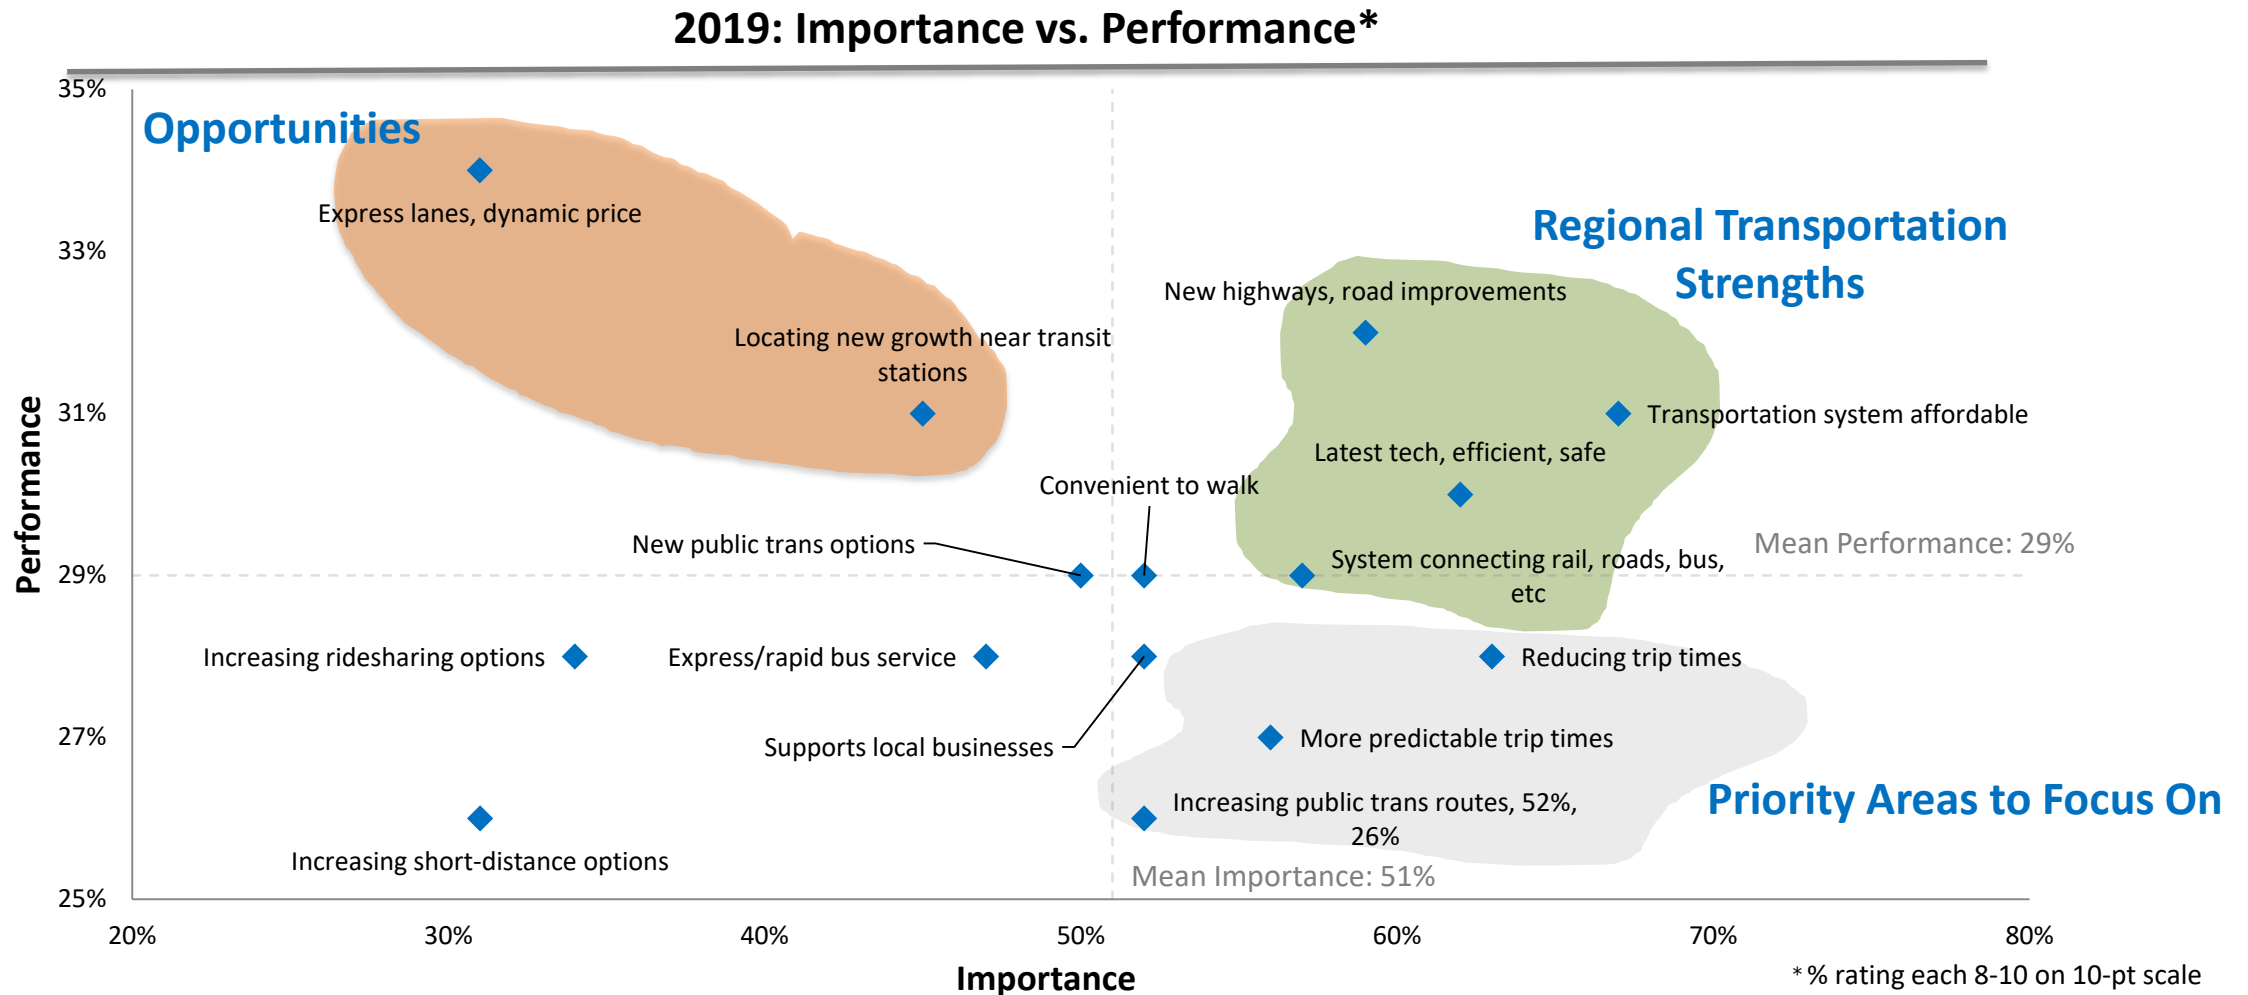

While performance ratings increase, but there is still room for improvement.

Performance Over Time in Regional Transportation Priorities*

*% rating each 8-10 on 10-pt scale

Priority areas to focus on: Reducing trip times, more predictable trip times, and increasing public transit services and routes.

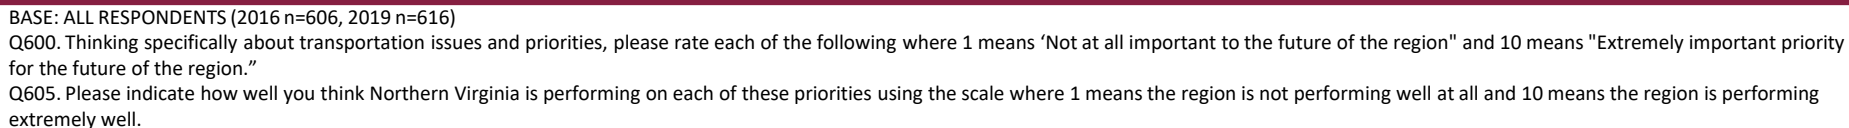

BASE: ALL RESPONDENTS (2019 n=616)

Q600. Thinking specifically about transportation issues and priorities, please rate each of the following where 1 means 'Not at all important to the future of the region' and 10 means 'Extremely important priority for the future of the region.'

Q605 Please indicate how well you think Northern Virginia is performing on each of these priorities using the scale where 1 means the region is not performing well at all and 10 means the region is performing extremely well.

33

All approaches are perceived as important to the region, with new/extended metro rail lines being the most important.

2019: Importance of Potential Improvements to Region

The background of the image is a close-up, high-resolution shot of asphalt pavement. It features two prominent, parallel yellow lines running vertically from the top to the bottom of the frame, which are typical of road lane markings. The asphalt itself has a dark, granular texture. The text is overlaid on the right side of the image, to the right of the yellow lines.

Transportation NEWS RECALL

Recall of positive news increases from prior waves. The gap between recall of positive and negative news narrows to 7 points.

Heard Something Recently

Top-of-Mind Transportation Issues

Is what you heard...

Most Likely to Hear Something Positive in 2019:

- 53% Loudoun County, 48% Prince William county
- 41% Live and work in the same county/city
- 40% Lived in region majority of life
- 45% Male
- 47% Children at home
- 47% Aware of NVTA
- 56% Aware of TransAction
- 46% Aware of NOVA Rides
- 60% Aware of 2+ Bus system initiatives
- 65% Good NVTA performance
- 53% Good NoVa performance

Most Likely to Hear Something Negative in 2019:

- 48% Fairfax County (incl. Falls Church)
- 50% Not lived in region majority of life
- 52% Female
- 57% Asian or Multi-race
- 47% No children at home
- 52% Non-Influencers
- 47% Unaware of NVTA
- 46% Unaware of TransAction
- 46% Unaware of NOVA Rides

BASE: : ALL RESPONDENTS (2015 n=610, 2016 n=606, 2019 n=616)

Q400. What, if anything, have you heard, read or seen recently regarding transportation issues, actions or news in the Northern Virginia region?

BASE: HEARD, READ, SEEN TRANSPORTATION ISSUES (2019 n=363); Consider it Positive 2019 (n=121), Consider it Negative 2019 (n=149)

Q405. Would you consider what you have heard, read, or seen positive or negative?

Denotes statistically significant differences between 2016 and 2019 (p<.05)

() #s in parenthesis are of interest, but are not statistically significant at p<.05 level

NVTA's
TransAction

Positive story recall is primarily about roads and metro/WMATA.

Top-of-Mind Transportation Issues

Positive

- **35% Road Mentions**

- Opening the new EZ Pass lanes on 395 inside the beltway.
- Approved a road bond to address some of the issues with road problems in Prince William County.
- They plan on expanding RT 28 and certain roads in Manassas.

- **29% Metro/WMATA Mentions**

- The completion of the metro silver line in Ashburn, VA.
- I've heard of new metro stations being opened in my area (Herndon/Dulles) and near Dulles airport.
- There is a train that is going to go between Richmond and DC.

- **12% I-66 Mentions**

- Express lanes on 66, expansion on 66, metro making improvements to correct deferred maintenance.
- Major construction of additional lanes on 66. Addition of toll lanes on beltway and 66.

- **10% HOV/Express Lanes Mentions**

- HOV lanes from beltway to DC line,. Most important to me is attention to the gridlock on I 95, particularly at Rt 123, and then down to Fredericksburg.

- **10% Traffic/Congestion Mentions**

- Plans to improve traffic congestion around the Occoquan area on I-95.

- **7% Bus Mentions**

- They are planning on widening Rte. 1 and adding dedicated bus lanes to ease congestion.

Negative story recall is primarily about metro/WMATA, roads, and traffic congestion.

Top-of-Mind Transportation Issues

Negative

- **33% Metro/WMATA Mentions***

- *There may... be a delay for opening of new metro stations. Similarly, several stations between Vienna and Falls Church will be closed next summer.*
- *The extension of the silver line of the metrorail will be delayed due to contractor's shortfalls. It will cost substantially more money to correct these shortfalls.*

- **30% Road Mentions****

- *Turning a lane of Seminary Road... into a bike lane, which I absolutely opposed since it clogs traffic more than it previously was. Adding toll lanes on 395.*
- *Most of the news on transportation has been related to toll roads and traffic congestion in the Washington DC metro area.*

- **28% Traffic Congestion Mentions****

- *Concerns regarding increase in traffic once Amazon HQ arrives in crystal city.*

- **21% Tolls****

- *Lots of projects; not enough money; more toll roads; more limited access roads for those who can afford them.*

- **10% Bus Mentions****

- *Bus strike/Bus drivers on strike.*
- *One of the things I've read recently about transportation issues is that a big group of our bus drivers are officially boycotting*

- **8% I-66 Mentions***

- *I have read that 66 is being widened. Also that inbound 66 has had tolls as high as \$46 for a drive of a few miles*
- *I-66 is under construction for the installation of toll express lanes, with commuter lots.*
- *Route 66 will eventually be a toll road and all lanes would require an easy pass.*

- * Down significantly from 2016

- ** Up significantly from 2016

Transportation MESSAGING

Slight decline in rail/transit spending from last wave. Most spend still goes to roads followed by rail/transit.

Average Point Allocation to Transportation Improvements

In 2019, Arlington County residents allocate a lesser portion towards roads while Fairfax County and Arlington County residents allocate a greater portion towards rail/transit.

BASE: ALL RESPONDENTS (2016 n=606, 2019 n=616)
Q735. If you had money to invest in transportation infrastructure improvements what proportion would you spend on roads, rail/transit and bicycle/pedestrian improvements? Please allocate 100 points to demonstrate how you would invest in each of the following...

Denotes statistically significant differences between 2016 and 2019 (p<.05)

Reducing/Improving travel times continues to lose ground as do other strategies.

Motivates Interest and Support

BASE: ALL RESPONDENTS (2015 n=610, 2016 n=606, 2019 n=616)
Q705. The following are strategies to help fulfill the regional values and priorities we have been talking about. There are different ways to talk about these priorities and goals. Please indicate the degree to which the goal captures and motivates your interest and support by rating the statements from 1 to 10 where 1 means "does not motivate your interest and support at all" and 10 means "completely motivates your interest and support".

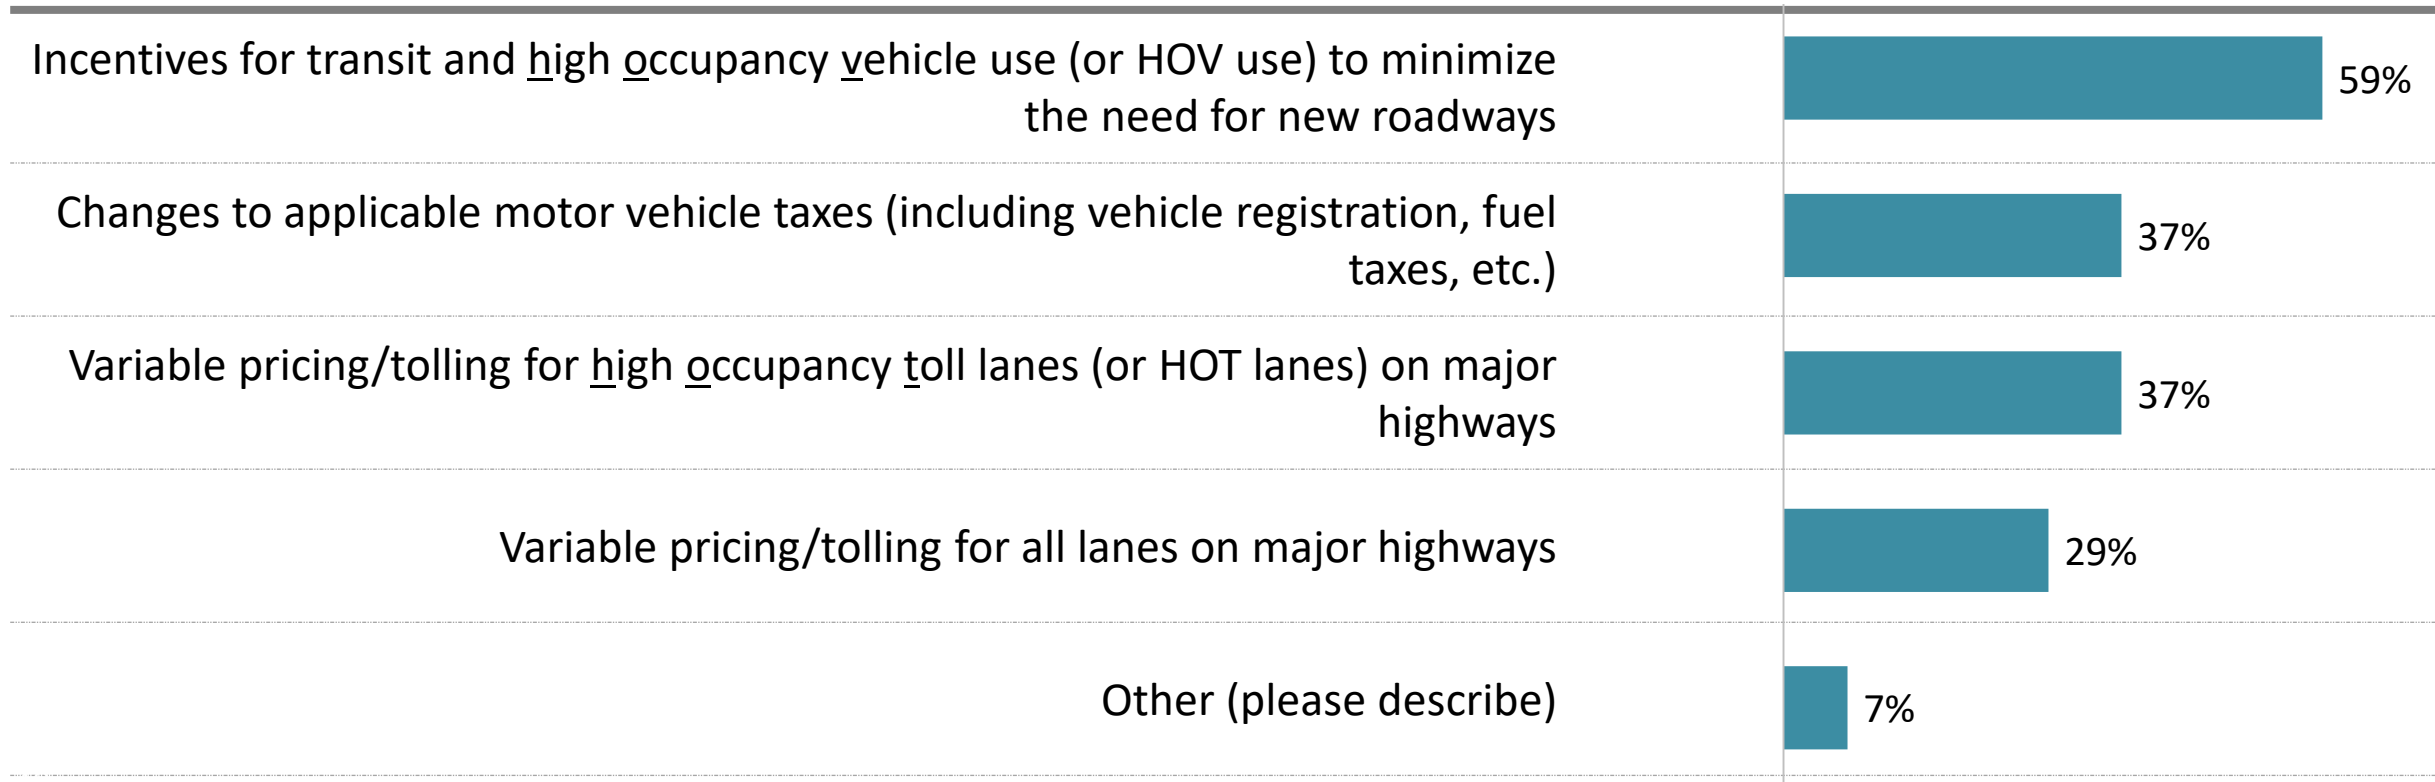

Denotes statistically significant differences between 2016 and 2019 (p<.05)

Perceptions of self-driving cars remain negative.

Excluding “incentives,” residents are split on how to secure future funding.

Preferred Methods of Funding Future Construction and Maintenance of Transportation Infrastructure

BASE: ALL RESPONDENTS (2019 n=616)

Q762. There are a variety of new ways to fund future construction and ongoing maintenance of the transportation infrastructure in the Northern Virginia Region.

Which of the following should be the focus when it comes to new ways of funding construction and maintenance of transportation infrastructure? (Please select all that apply.)

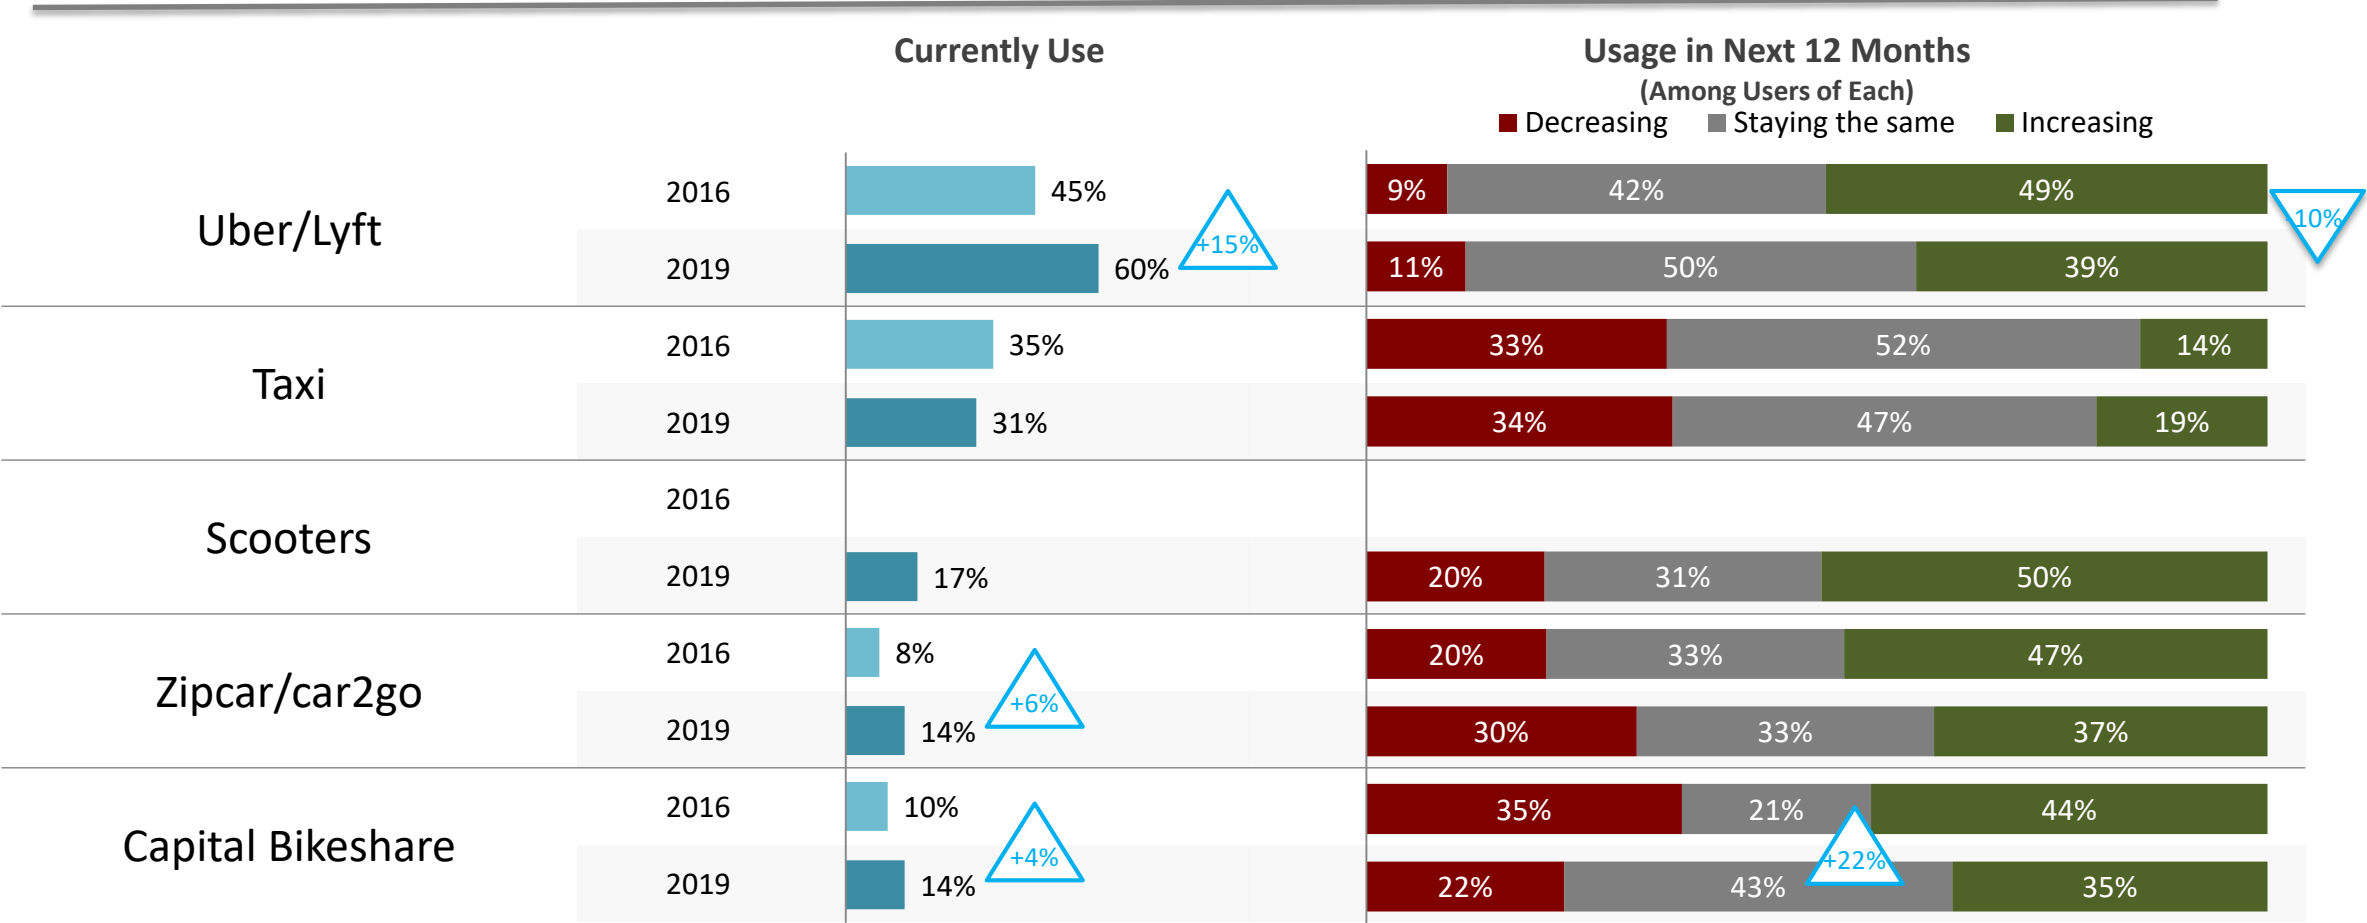

Transportation

IMPACT OF 21ST CENTURY
EXPANDED ALTERNATIVES TO CAR
OWNERSHIP AND LIFESTYLE
FACTORS

Residents use of ridesharing services has increased, but future growth is flattening.

Usage of Car Ownership Alternatives

BASE: ALL RESPONDENTS (2016 n=606, 2019 n=616). Q740. There are a number of alternatives to owning a car that are being used by people living in the region. Which of the following do you currently use?
BASE: AMONG THOSE USING EACH SERVICE - UBER/LYFT (2016 n=265, 2019 n=352); Taxi (2016 n=208, 2019 n=189); Scooters (2019 n=94); Zipcar/car2go (2016 n=46, 2019 n=80); Capital Bikeshare (2016 n=55, 2019 n=84). Q745. Do you anticipate your usage increasing, decreasing or staying the same over the next 12 months for each of the following?

Denotes statistically significant differences between 2016 and 2019 (p<.05)

Almost half (46%) of NoVa residents shop online at least once a week, and a fifth (19%) shop online multiple times a week.

Transportation

APPENDIX: PRIOR WAVE
DATA

In 2017, NVTa should continue to focus its efforts on reducing trip times and making transportation affordable, but by way of new transportation options and technologies.

BASE: ALL RESPONDENTS (2016 n=606, 2019 n=616)
Q600. Thinking specifically about transportation issues and priorities, please rate each of the following where 1 means 'Not at all important to the future of the region' and 10 means 'Extremely important priority for the future of the region.'
Q605. Please indicate how well you think Northern Virginia is performing on each of these priorities using the scale where 1 means the region is not performing well at all and 10 means the region is performing extremely well.
