NORTHERN VIRGINIA TRANSPORTATION AUTHORITY

M E M O R A N D U M

TO: Chairman Martin E. Nohe and Members
Northern Virginia Transportation Authority

FROM: Monica Backmon, Executive Director

DATE: June 2, 2017

SUBJECT: Executive Director's Report

- 1. Purpose:** To inform the Northern Virginia Transportation Authority (NVTA) of items of interest not addressed in other agenda items.
- 2. Transforming 66 Outside the Beltway Trucks in the Express Lanes.** At the May 11, 2017 Authority meeting, the Authority had a robust discussion regarding the provision of trucks being allowed in the express lanes. I was directed to contact Commissioner Kilpatrick to seek responses to some of the issues raised during the meeting. Attachment A is the result of the discussion with Commissioner Kilpatrick and VDOT staff regarding trucks in the I-66 Outside the Beltway Express Lanes.
- 3. Transforming 66 Outside the Beltway Public Information Meetings.** VDOT and I-66 Express Mobility Partners (66 EMP), the partner selected to deliver the 66 Outside the Beltway project, are hosting public meetings at the following locations and times:
 - **Monday, June 12, 2017**
Oakton High School Cafeteria
2900 Sutton Road, Vienna, VA 22181
 - **Wednesday, June 14, 2017**
Stone Middle School Cafeteria
5500 Sully Park Drive, Centreville, VA 20120
 - **Thursday, June 15, 2017**
Piney Branch Elementary School Cafeteria/Gym
8301 Linton Hall Road, Bristow, VA 20136

All meeting times are 6-8:30pm. A brief presentation will be held at 7pm, followed by a question-and-answer session. Information will be provided on the current project status and schedule, 66 EMP concept plans, and upcoming activities in the I-66 corridor. Technical staff will be on hand to answer one-on-one questions before and after the presentation.

- 4. NVTA Five Year Strategic Plan.** The Authority will receive a briefing on the status of its first Five Year Strategic Plan at the September 14, 2017 meeting. The Strategic Plan builds upon the Authority's vision statement through the application of strategies to the adopted goals. This effort brings together the collaborative insights and suggestions from Authority Members, jurisdictions, agencies and NVTA staff.
- 5. Technology Project Plan.** At the March 23, 2017 Authority meeting, the Authority authorized the advancement of \$25,000 from the FY2018 budget to be used to initiate the Authority's Technology Project Plan. Interactive GIS maps of the adopted regional revenue funded projects and the 358 projects currently being considered as part of the TransAction Plan update, have been developed and are being added to the Authority's website. The use of this tool enables the public, stakeholders, Authority members and others to click on individual projects to see detailed project data, the nexus between projects, geographic distribution, modal balance, etc.
- 6. NVTA Standing Committee Meetings**
 - **Planning and Programming Committee:** The NVTA Planning and Programming Committee will meet on Friday, September 8, 2017 at 10:00am.
 - **Finance Committee:** The NVTA Finance Committee will meet on Thursday, June 15, 2017 at 1:00pm.
 - **Governance and Personnel Committee:** The NVTA Governance and Personnel Committee will meet on Thursday, September 14, 2017 at 6:00pm.
- 7. NVTA Statutory Committee Meetings:**
 - **Planning Coordination Advisory Committee:** The PCAC will meet on Wednesday, June 28, 2017 at 6:30pm.
 - **Technical Advisory Committee:** The TAC will meet on Wednesday, June 21, 2017 at 7:00pm.
- 8. CMAQ-RSTP Transfers:**
 - CMAQ and RSTP Transfers requested since the last Executive Director's report are presented in Attachment B.
- 9. FY2014-2016 NVTA Regional Projects Status Report:**
 - Please note the updated Regional Projects Status Report (Attachment C), which provides a narrative update for each project and the amount of project reimbursements requested and processed to date.

Subject: Additional Information on I-66 and Trucks

Monica, Attached for your information and use are some facts regarding trucks in the I-66 Corridor. Let me know if you have any questions or need additional information.

- Today the percentage of large trucks on I-66 Outside the Beltway is 3-4% of the daily traffic, and during peak periods is 1-2% of the traffic.
- Today I-66 carries fewer large trucks during peak hours than I-81 or I-95 (both by percentage of total traffic and by number of large trucks).
- Future projections based upon our I-66 Outside the Beltway traffic model shows that large trucks are expected to make up about 1-2% of the express lanes traffic. These percentages remain the same in the future, and additional truck traffic in the I-66 corridor is not anticipated as a result of allowing large trucks to use the express lanes.
- The Express Lanes will be designed to safely accommodate large trucks and to be posted at 70 mph. Roadway and ramp designs (such as ramp lengths allowing deceleration, turning radii, lane and ramp widths, etc.) will take into account large trucks, and will be developed in accordance with State and Federal standards and procedures. Final designs will be approved by VDOT and FHWA.
- Braking distances of large trucks compared to passenger cars are nearly the same (only about 100 feet different), since the 1997 federal mandate to require antilock braking systems in trucks.

In addition, we have added some frequently asked questions to our website about large trucks. Please see the following link.

NORTHERN VIRGINIA TRANSPORTATION AUTHORITY

MEMORANDUM

TO: Chairman Martin E. Nohe and Members
Northern Virginia Transportation Authority

FROM: Monica Backmon, Executive Director

DATE: June 2, 2017

SUBJECT: Approval of Reallocation of Congestion Mitigation and Air Quality (CMAQ) and Regional Surface Transportation Program (RSTP) funds for the Town of Vienna, the Virginia Department of Transportation, and Fairfax County

- 1. Purpose:** To inform the Northern Virginia Transportation Authority (NVTA) of the Regional Jurisdiction and Agency Coordinating Committee (RJACC) Approval of Reallocation of Congestion Mitigation and Air Quality (CMAQ) and Regional Surface Transportation Program (RSTP) funds for the Town of Vienna, the Virginia Department of Transportation, and Fairfax County.
- 2. Background:** On September 11, 2008, the Authority delegated the authority to approve requests to reallocate Congestion Mitigation and Air Quality (CMAQ) and Regional Surface Transportation Program (RSTP) funding between projects that were previously approved by the NVTA to the Regional Jurisdiction and Agency Coordinating Committee (RJACC).

On April 27, 2017, the Town of Vienna requested the following reallocation:

- \$30,329 in prior year CMAQ funds from Traffic Signal Optimization (UPC 106524) to Traffic Signal Reconstruction (UPC 100489). The Traffic Signal Optimization project has been completed.

On May 5, 2017, the Virginia Department of Transportation (VDOT) requested the following reallocation:

- \$1,542,781 from surplus CMAQ funds from Construction of Northern Virginia Districtwide Traffic Signals to the on-going Districtwide Signal Optimization project. VDOT identified the surplus funds, which were programmed through the Council of Governments prior to the existence of the Authority. VDOT has verified that the funds remain as VDOT allocations, and there is federal CMAQ apportionment available to support the obligation.

On May 25, 2017, Fairfax County requested the following reallocations:

- \$150,000 in FY 2016 CMAQ funds from the Reston Metrorail Access Group (RMAG) project (UPC 100470) to Route 123 North Sidewalk project (UPC 103280).
- \$450,000 in FY 2016 CMAQ funds from the RMAG project (UPC 100470) to the Route 123 South Sidewalk project (UPC 103281).
- These transfers are needed due to recent bids that are in excess of construction cost estimates.

The RJACC approved these requests at their meeting on May 25, 2017.

Attachment(s): DRAFT Letter to VDOT NOVA District Administrator Cuervo
Request from the Town of Vienna
Request from the Virginia Department of Transportation
Request from Fairfax County

Coordination: Regional Jurisdiction and Agency Coordinating Committee

Northern Virginia Transportation Authority

The Authority for Transportation in Northern Virginia

June 8, 2017

Ms. Helen Cuervo
District Administrator

Fairfax, Virginia 22030

Reference: Request to Reallocate Congestion Mitigation and Air Quality (CMAQ) and Regional Surface Transportation Program (RSTP) funds for the Town of Vienna, the Virginia Department of Transportation, and Fairfax County

Dear Ms. Cuervo:

On September 11, 2008, the Authority delegated the authority to approve requests to reallocate Congestion Mitigation and Air Quality (CMAQ) and Regional Surface Transportation Program (RSTP) funding between projects that were previously approved by the NVTA to the Regional Jurisdiction and Agency Coordinating Committee (RJACC).

On April 27, 2017, the Town of Vienna requested the following reallocation:

- \$30,329 in prior year CMAQ funds from Traffic Signal Optimization (UPC 106524) to Traffic Signal Reconstruction (UPC 100489). The Traffic Signal Optimization project has been completed.

On May 5, 2017, the Virginia Department of Transportation (VDOT) requested the following reallocation:

- \$1,542,781 from surplus CMAQ funds from Construction of Northern Virginia Districtwide Traffic Signals to the on-ongoing Districtwide Signal Optimization project. VDOT identified the surplus funds, which were programmed through the Council of Governments prior to the existence of the Authority. VDOT has verified that the funds remain as VDOT allocations, and there is federal CMAQ apportionment available to support the obligation.

On May 25, 2017, Fairfax County requested the following reallocations:

- \$150,000 in FY 2016 CMAQ funds from the Reston Metrorail Access Group (RMAG) project (UPC 100470) to Route 123 North Sidewalk project (UPC 103280).
- \$450,000 in FY 2016 CMAQ funds from the RMAG project (UPC 100470) to the Route 123 South Sidewalk project (UPC 103281).
- These transfers are needed due to recent bids that are in excess of construction cost estimates.

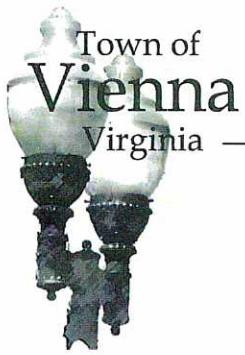

NVTA's delegation requires that the RJACC notify the NVTA of these requests. The RJACC approved these requests on May 25, 2017, and the NVTA was informed at their June 8, 2017, meeting. The NVTA has not objected to these reallocations.

Please take the necessary steps to reallocate these funds in the Transportation Improvement Program and the State Transportation Improvement Program. Thank you very much.

Sincerely,

Noelle Dominguez
NVTA RJACC Chairman

RE: Reallocation of CMAQ funds, UPC 106524 to UPC 100489

Dear Mr. Holloman,

The Town of Vienna requests NVTA JACC concurrence to move \$30,329 from UPC 106524 Traffic Signal Optimization to UPC 100489 Traffic Signal Reconstruction. UPC 106524 has been completed with a surplus and we would like to transfer these funds back to the parent project UPC 100489.

My contact information is 703-255-6389 or email at mgallagher@viennava.gov.

Sincerely,

Michael Gallagher, PE
Public Works Director

RE: Reallocation of Congestion Mitigation Air Quality (CMAQ) Funds

Dear Ms. Dominguez:

As part of the on-going financial reconciliation of projects, we have identified surplus CMAQ funds programmed through COG prior to the existence of NVTA on a project for "Construction of Northern Virginia Districtwide Traffic Signals". We have verified that the funds remain as VDOT allocations and there is federal CMAQ apportionment available to support obligation if the funds are transferred. NOVA District recommends that the \$1,542,781 in CMAQ funds be transferred to the on-going Districtwide Signal Optimization project as the two projects have similar intentions.

Sincerely,

Helen L. Cuervo

Re: Reallocation of Congestion Mitigation Air Quality (CMAQ) funds

Dear Ms. Dominguez: *Noelle*

Fairfax County requests the approval of the Regional Jurisdiction and Agency Coordinating Committee (RJACC) and the Northern Virginia Transportation Authority to transfer the following CMAQ funds:

\$600,000 in FY 2016 CMAQ funds from the Reston Metrorail Access Group (RMAG) project (UPC 100470) to the following two projects:

- Route 7 – Route 123 North Sidewalk project (UPC 103280) in the amount of \$150,000
- Route 7 – Route 123 South Sidewalk project (UPC 103281) in the amount of \$450,000

This transfer is needed due to recent bids that are in excess of construction cost estimates.

If you have any questions or concerns about this request please contact Brent Riddle at (703) 877-5659.

Sincerely,

[Handwritten signature of Tom Biesiadny]

NVTA FY2014-17 Program Project Status

Jurisdiction/ Agency	Project Description	NVTA Funds (FY2014)	Phase(s) Funded	Status	Completion (Project)	Completion (NVTA funded Phases)	Percentage Reimbursed as of 5/31/17
Arlington County	Boundary Channel Drive Interchange – Constructs two roundabouts at the terminus of the ramps from I-395 to Boundary Channel Drive, which eliminate redundant traffic ramps to/from I-395. In addition, the project will create multi-modal connections to/from the District of Columbia that will promote alternate modes of commuting into and out of the District.	\$4,335,000 (FY2014)	Construction	Planning and design underway; construction of the interchange begins in Fiscal Year 2020; construction of the local road that connects to the interchange (Long Bridge Drive) began in early October 2016.	By end of Calendar year 2018 (Long Bridge Drive) and by end of Calendar year 2022 (interchange)	Mid-2019	11.8%
Arlington County	Columbia Pike Multimodal Improvement – Includes a modified street cross-section with reconfigured travel and transit lanes, medians and left-turn lanes, utility undergrounding and other upgrades along Arlington's 3.5 mile Columbia Pike corridor from the Fairfax County line on the west end to Four Mile Run.	\$12,000,000 (FY2014)	Construction	Design notice to proceed was provided in October 2014. Streetscape and Undergrounding plan approval expected in March 2017. Washington Gas relocations began April 12, 2017. Invitation to Bid scheduled for release July 2017, with construction expected to be under way in Nov 2017.	Fall 2019	Fall 2019	0%

Jurisdiction/ Agency	Project Description	NVTA Funds Funded	Phase(s) Funded	Status	Completion (Project)	Completion (NVTA funded Phases)	Percentage Reimbursed as of 5/31/17
Arlington County	Columbia Pike Multimodal Street Improvements (East End) – Includes a modified street cross-section along the eastern portion of Arlington's 3.5 mile Columbia Pike corridor. Specific works includes realignment of road including shifting the roadway south of its existing location, eliminating the s-curves, utility undergrounding and enhancing pedestrian facilities	\$10,000,000 (FY2015-16)	Engineering Construction	Segment A (East End) has been split into two sections. First section is Orme to Oak (West) and the second projected is Oak to Joyce Street (East). Segment A West completed the 90% plan review in April 2017. Right-of-Way acquisition underway, but must be completed prior to final plan approval and construction. Segment A East is subject to negotiations with Arlington National Cemetery.	Western Half – Spring 2020; Eastern Half – projected Summer 2020	Western Half – Spring 2020; Eastern Half – projected Summer 2020	0%

Jurisdiction/ Agency	Project Description	NVTA Funds (FY2014)	Phase(s) Funded	Status	Completion (Project) Phases)	Completion (NVTA funded Phases)	Percentage Reimbursed as of 5/31/17
Arlington County	Crystal City Multimodal Center – Provides four additional saw-tooth bus bays for commuter and local bus services, seating, dynamic information signage, lighting, additional bicycle parking, curbside management plan for parking, kiss and ride, and shuttles, and pedestrian safety improvements along 18th Street South between South Bell Street and South Eads Streets.	\$1,500,000 (FY2014)	Construction	Construction started July 6, 2015. The NVTA funded phase of this project is significantly completed as of June 2016. Final paving and striping was mostly completed in December 2016 at the same time as an adjacent County project. Only punch-list items remain on this project, plus green bike lane painting. A ribbon cutting ceremony was held on May 18, 2017. There are only a few remaining punch-list items on this project. Remaining funds will be used to implement the real-time information signage installation. The planning process for this task has just begun. An updated schedule on this phase will be provided in the July update.	Spring 2017	Spring 2017.	75.5%

Jurisdiction/ Agency	Project Description	NVTA Funds (FY2015-16)	Phase(s) Funded	Status	Completion (Project) Phases)	Completion (NVTA funded Phases)	Percentage Reimbursed as of 5/31/17
Arlington County	Ballston-MU Metrorail Station West Entrance – Constructs a second entrance to the Ballston-MU Metrorail Station, at North Fairfax Drive and North Vermont Street. Includes two street-level elevators & escalators, connecting to an underground passageway & new mezzanine. It will have fare gates, fare vending machines and an attended kiosk. Provides direct access, relieves congestion at the current entrance and provides for more even distribution along the platform	\$12,000,000 (FY2015-16)	Design	Design work to run for two years from Fall 2017.	Start of Construction in winter 2019	Fall 2019	0%
Arlington County	Glebe Road Corridor Intelligent Transportation System Improvements – Design and construction of Intelligent Transportation System (ITS) and Adaptive Traffic Control System, including hardware and software for real time traffic data collection, Forward Looking Infra Red (FLIR), traffic detection, 3D pedestrian and bike detection, interactive audible ADA accessible pedestrian crossings, CCTVs, backup power supply information systems, queue detections, and dynamic message signs.	\$2,000,000 (FY2015-16)	Engineering Construction	Task 1 – On Site Support - Engineer has been procured for this project. Task 2 – Chain Bridge ITS upgrades – Consultant procurement is underway Task 3 – Chain Bridge Fiber communication – In construction phase. Task 4 – ITS Equipment Installations – Field assessment underway. Task 5 – TSP equipment installation – Waiting on contract to procure TSP equipment.	Task 2 – Summer 2019 Task3 - August 2017 Task 4 – Dec. 2017 Task 5 – Summer 2018 Task 5 – Summer 2018	Task 2 – Summer 2019 Task3 - August 2017 Task 4 – Dec. 2017 Task 5 – Summer 2018	3.3%

Jurisdiction/ Agency	Project Description	NVTA Funds Funded	Phase(s) Funded	Status	Completion (Project) Phases)	Completion (NVTA funded Phases)	Percentage Reimbursed as of 5/31/17
Arlington County	Lee highway Corridor ITS Enhancements – The project proposes to address congestion, safety, and transit issues by installing an Intelligent Transportation System (ITS) and corresponding Adaptive Traffic Control System program, to better manage traffic flow for both automobiles and buses. The project will install additional Bluetooth devices, count stations, CCTV cameras, and Forward Looking Infrared (FLIR) detectors in order to monitor traffic flow and safety of all modes. At the interchange of Lee Highway and I-66, the project will upgrade two signals, providing a better-timed connection between I-66 and Lee Highway. The project will also upgrade existing mast arm signals and add or improve existing streetlights along Lee Highway.	\$3,000,000 (FY2017)	Design, PE, ROW, Construction	Preliminary field assessment has been completed. Survey requests have been submitted and survey work will start in a few weeks.	June 2020	June 2020	0%

Arlington County	Crystal City Streets: 12th Street Transitway, Clark/Bell Realignment & Intersection Improvements – The goal is to streamline the existing road network, make movements for all modes of transportation more efficient, create new connections to the street grid network, and to construct an extension of the Crystal City-Potomac Yard (CCPY) Transitway. It includes reconfiguring the street between South Eads Street and South Clark Street to provide exclusive transit lanes, reconfigure and realign a segment of Clark Street with Bell Street, and the intersection improvements around 23rd Street South and US-1 will simplify the design of three closely-spaced intersections that are confusing and inefficient for all modes.	\$11,600,000 (FY2017)	Design, PE, ROW, Construction	Design work began in fall 2016. 12 th Street plans are at 30%. A public meeting was held on April 5, 2017. The County has decided to combine this phase of the project with the larger CCPY extension project to Pentagon City Metro. County engineers will bring that phase to 30% and then complete overall design concurrently.	23 rd street has been split into 3 phases. The segment between US1 and Eads will be completed in Phase 1 using County design team as well as County road crews for construction. This should be completed before the end of CY2017. Phase 2 will include the reconfiguration of US1 interchange and adjacent pedestrian facilities, to be designed immediately. Phase 3 addresses the section of 23 rd Street from Eads to Crystal Drive. This will be completed in conjunction with adjacent private-sector redevelopment projects in the future.	Clark/Bell Realignment has completed 30% design. Comment resolution is currently scheduled and the design is progressing into the 60% level.

Jurisdiction/ Agency	Project Description	NVTA Funds Funded	Phase(s) Funded	Status	Completion (Project)	Completion (NVTA funded Phases)	Percentage Reimbursed as of 5/31/17
Fairfax County	Innovation Metrorail Station – Construction of the Silver Line Phase II extension of the rail system from Washington DC, to and beyond the Dulles International Airport. This multimodal facility will include bus bays, bicycle parking, kiss-and-ride and taxi waiting areas, as well as pedestrian bridges and station entrances from both the north and south sides of the Dulles Airport Access Highway/Dulles Toll Road.	\$41,000,000 (FY2014)	Design Construction	Pedestrian bridge assembly, precast, and masonry work is currently underway for station entrances. The County has awarded the contract for construction and work is expected on the kiss and ride, bike facilities and taxi waiting areas. The bus bays have been completed.	Spring 2019	Spring 2019	89%
	Innovation Metrorail Station (Continuation) - Construction of the Silver Line Phase II extension of the rail system from Washington DC, to and beyond the Dulles International Airport. This multimodal facility will include bus bays, bicycle parking, kiss-and-ride and taxi waiting areas, as well as pedestrian bridges and station entrances from both the north and south sides of the Dulles Airport Access Highway/Dulles Toll Road.	\$28,000,000 (FY2015-16)	Construction	Pedestrian bridge assembly, precast, and masonry work is currently underway for station entrances. The County is in the process of awarding a contract for the construction of the kiss and ride, bus bays, bike facilities and taxi waiting areas.	Spring 2019	Spring 2019	0%
Fairfax County	West Ox Bus Garage - Expands capacity of the West Ox bus facility and allows for additional, increased Fairfax Connector bus service. Includes 9 maintenance bays and expansion of facilities for bus drivers and security.	\$20,000,000 (FY2015-16)	Construction	The Maintenance Building is dried-in and finish work is ongoing. The bus lift installation and DTT wiring are ongoing. Work at the Administration Building expansion is ongoing.	September 2017	September 2017	24.2%

Virginia Railway Express	Alexandria Station Tunnel – Includes a pedestrian tunnel connection between Alexandria Union Station/VRE Station and the King Street Metrorail Station, as well as the improvement of the VRE station east side platform to enable it to service trains on both sides.	\$1,300,000 (FY2014)	Construction	Project cost increase has required a search for new sources of funds for construction. Notified of successful Smart Scale grant application. Will know in June 2017 for use in construction. Will use NVTA funds to advance design to construction plans and begin construction. Considering CM/GC (CMAR) project delivery to get designer and construction contractor on board at same time. Schedule will be revised when notification of Smart Scale Award is official.	Fall 2020 June 2019	June 2019 0%	
Virginia Railway Express	Gainesville to Haymarket Extension – Corridor study and preliminary engineering development of an 11-mile VRE extension from Manassas to Gainesville-Haymarket.	\$1,500,000 (FY2014)	Planning Project Development Conceptual Design	Phase I, planning and alternatives analyses, complete. VRE Operations Board recommended advancing Phase II of study, NEPA/PE, for an expanded Broad Run terminus in support of VRE Manassas Line expansion. Phase II initiation is pending DRPT NTP for REF funds for study and amendment of VRE consultant contract, estimated for July 2017.	Winter 2017-18 18	Winter 2017-18 47.5%

Virginia Railway Express	Lorton Station Second Platform - Includes final design and construction of a 650 foot second platform at the VRE Lorton Station in Fairfax County to accommodate trains up to 8 cars in length.	\$7,900,000 (FY2014)	Final Design Construction	NTP for PE as part of Penta Platform Effort issued 8/4/2016 effective 8/5/2016. 24 month anticipated Preliminary Engineering and NEPA Schedule. 12 month Final Design Schedule. Some concurrency possible. Construction is anticipated in summer 2018. Conceptual design alternatives and environmental documentation is being finalized. Procurement efforts are currently underway for final design services.	Summer 2020	June 2019	0%

Jurisdiction/ Agency	Project Description	NVTA Funds (FY2015-16)	Phase(s) Funded	Status	Completion (Project) Phases)	Completion (NVTA funded Phases)	Percentage Reimbursed as of 5/31/17
Virginia Railway Express	Manassas Park Station Parking Expansion - Planning and engineering investigations to expand parking and pedestrian connections at the VRE Manassas Park station	\$500,000 (FY2015-16)	Planning & Engineering Studies	Contract was awarded at June 2016 VRE Board Meeting. NTP has been issued. The City Council endorsed VRE's recommended site on November 15, 2016. The technical report for the Alternatives Analysis task will be finalized in May 2017. VRE Board awarded Optional Task A for PE and NEPA on January 27, 2017. Site survey was conducted in Mar/Apr 2017. PE and NEPA analysis has been initiated. City Council was provided a status update in May. Public outreach to review the design is proposed in late June.	Fall 2017	Summer 2017	26.9%
	Manassas Park Station Parking Expansion (continuation) - Planning and engineering investigations to expand parking and pedestrian connections at the VRE Manassas Park station.	\$2,000,000 (FY2017)	Design, PE, Environmental	Continuation of the FY2015-16 project above.	Construction completion in July 2020	Fall 2018	0%

Jurisdiction/ Agency	Project Description	NVTA Funds (FY2015-16)	Phase(s) Funded	Status	Completion (Project)	Completion (NVTA funded Phases)	Percentage Reimbursed as of 5/31/17
Virginia Railway Express	Franconia-Springfield Platform Expansion - Design and construction to extend the existing north-side (Metro station side) platform by up to 700 feet to allow the north-side platform at the station to be usable by full length VRE trains. It also includes design and construction of modifications to the south-side platform at the station.	\$13,000,000 (FY2015-16)	Design Construction	NTP for PE as part of Penta Platform Effort issued 8/4/2016 effective 8/5/2016. 24 month anticipated Preliminary Engineering and NEPA Schedule. 12 month Final Design Schedule. Some concurrency possible. Construction is anticipated in summer 2018. Conceptual design alternatives and environmental documentation is being finalized. Procurement efforts are currently underway for final design services.	Summer 2020	Summer 2021	0%
Virginia Railway Express	Rippon Station Expansion and Second Platform - Includes NEPA, design and construction to modify the existing platform and add a second platform at the station to service trains up to 8 cars long. An elevator will also be constructed to get passengers to the new platform.	\$10,000,000 (FY2015-16)	NEPA Design Construction	NTP for PE as part of Penta Platform Effort issued 8/4/2016 effective 8/5/2016. 24 month anticipated Preliminary Engineering and NEPA Schedule. 12 month Final Design Schedule. Some concurrency possible. Construction is anticipated in summer 2018. Conceptual design alternatives and environmental documentation is being finalized. Procurement efforts are currently underway for final design services.	Summer 2020	March 2019	0%

Virginia Railway Express	Slater's Lane Crossover - Includes the design and construction of a rail crossover and related signal equipment near Slater's Lane, north of the VRE Alexandria station. It will enable trains to move between all 3 tracks and makes the east side (Metro side) platform at the VRE Alexandria station usable from both sides.	\$7,000,000 (FY2015-16)	Design Construction	Final design by CSXT began in July 2016 and recent information indicates that project is on hold pending CSX reorganization. Construction schedule pending final design. All work to be done by CSXT forces.	Summer 2017	Summer 2017	0%
Virginia Railway Express	Crystal City Platform Extension Study - Includes planning and engineering investigations to evaluate the options for expansion of the VRE Crystal City station that will alleviate existing crowding, improve multimodal connections, and accommodate future service expansion and bi-directional service. The project includes development of a NEPA checklist.	\$400,000 (FY2015-16)	Planning Engineering Studies	VRE Operations Board authorized RFP for consultant services in February 2016. NTP awarded in December 2016. Public outreach to solicit feedback on the proposed options and the evaluation criteria conducted in Mar/Apr 2017. In June, public outreach will be focused on the evaluation of the proposed options. An Arlington County Board Work session is scheduled for this project on June 28, 2017.	Fall 2017	December 2017	0%

Washington Metropolitan Transit Authority	8-Car Traction Upgrades – Begins the process of upgrading traction power along the Orange Line by incrementally improving the power system to increase power supply capacity to support the future expanded use of eight car trains.	\$4,978,685 (FY2014)	Construction Contract Admin.	Invitation for Bid (IFB) was released 10/20/2015, bids were received 12/9/2015. Procurement determined the bid package must be resolicited. Contract was re-advertised on 3/4/2016 and second round of bids were received 3/18/2016. Contract NTP issued on 10/26/2016. Traction power gear has been manufactured and delivered. Installation of the traction power gear is scheduled to commence beginning June 2017 at both location, starting with K06TB2 Greenwich Street. NVTA funded phases are expected to be completed by November 2018, with an overall Contract Period ending in March 2018.	Projected Contract Close- out March 2018	December 2017	3.5%
Washington Metropolitan Transit Authority	Blue Line 8-Car Traction Upgrades – Begins the process of upgrading traction power along the Blue Line by incrementally improving the power system to increase power supply capacity to support the future expanded use of eight car trains.	\$17,443,951 (FY2017)	Engineering, Construction, Contract Admin.	Invitation for Bid (IFB) is scheduled to be released in July 2017. Contract award is estimated by November 1, 2017, NTP to immediately follow. Due to manufacturing lead times installation is estimated to commence September 2018.	Project Contract Close-out estimated June 2021	June 2021	0%
