March 30, 2022

# We spend a lot of time running errands

% of daily trips taken by Americans

Commuting is  
only 24% of total trips  
vs 43% for  
shopping/errands

75 million hours  
wasted every day on  
just traveling to/from  
stores & errands

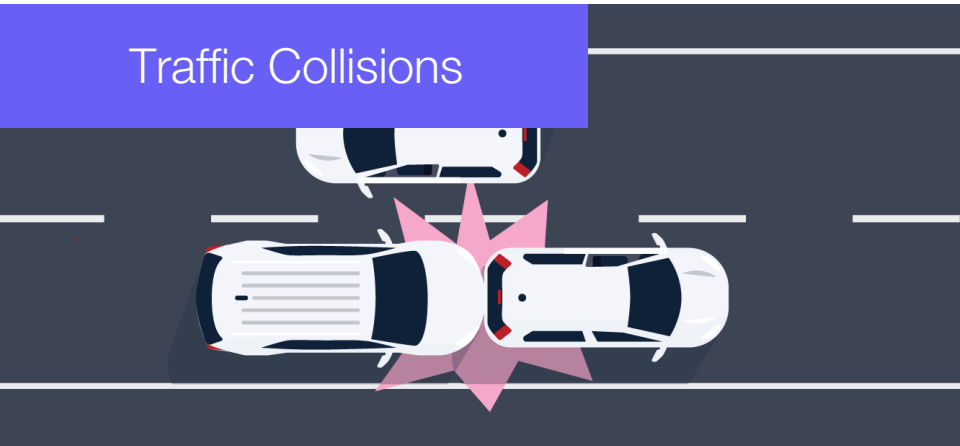

Source: [Federal Highway Administration 2017 National Household Travel Survey](#)

# The way we shop today is **not sustainable**

## Traffic Collisions

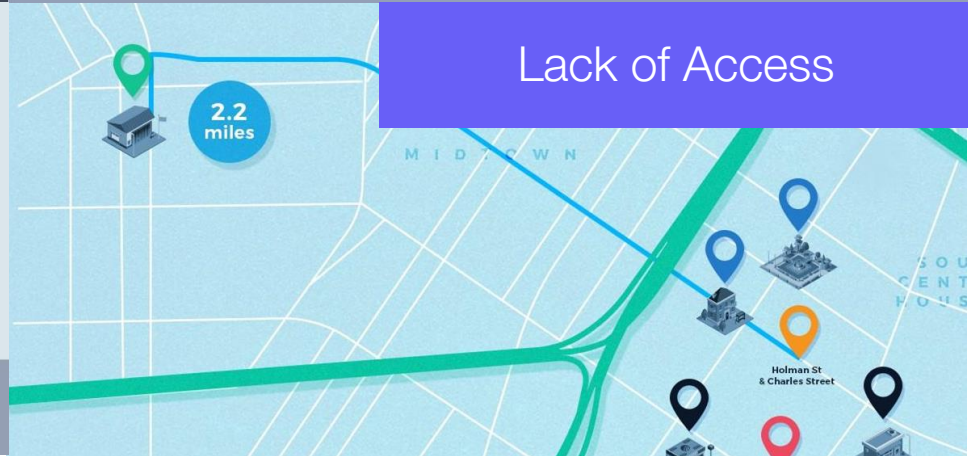

## Environmental Damage

## Economic Strain

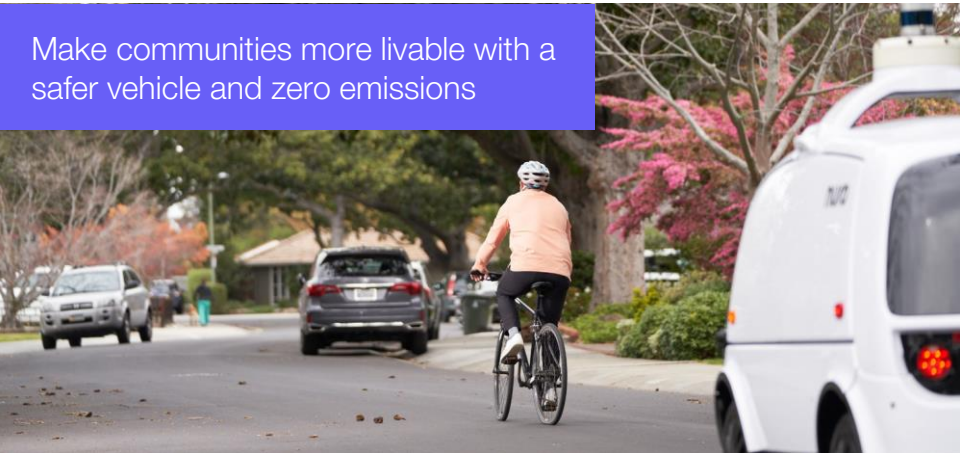

## Lack of Access

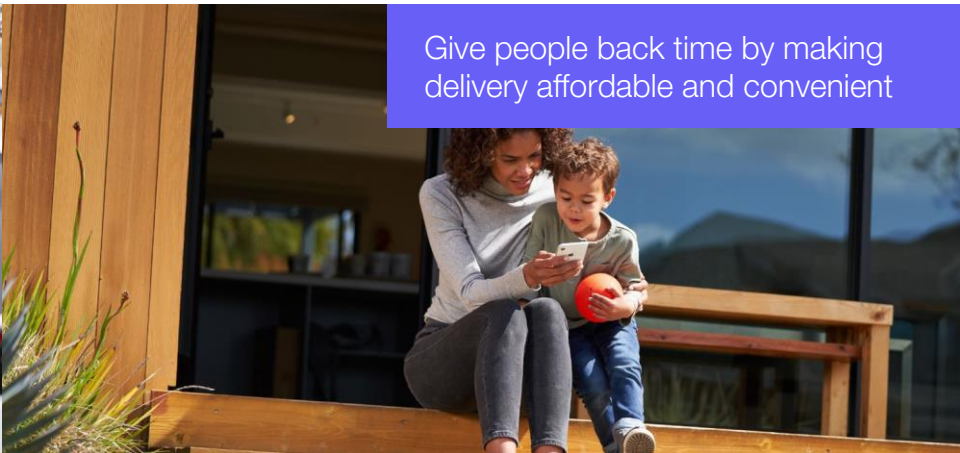

# Neighborhood delivery powered by autonomous zero-occupant electric vehicles can help

Make communities more livable with a safer vehicle and zero emissions

Give people back time by making delivery affordable and convenient

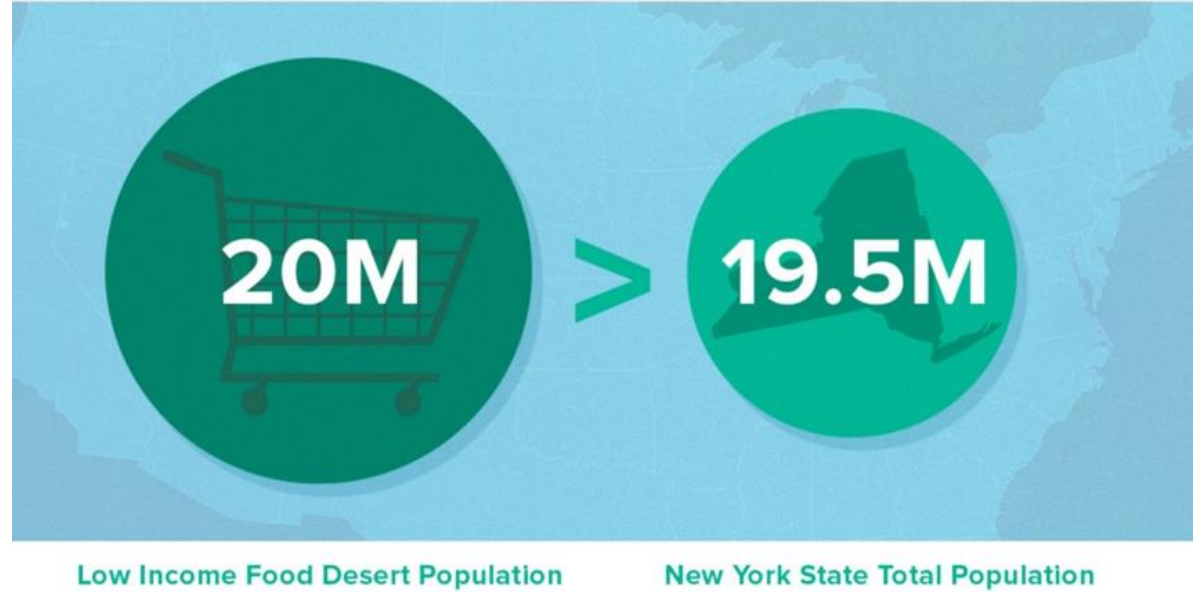

Create long-lasting regional benefits for local businesses and the economy

Improve access to affordable, healthy foods and other essentials

# Expanding access to essential goods

# Thank You.
