

Transportation Issues in Northern Virginia

FINAL: April 26, 2005

Introduction

Hello, this is (FIRST AND LAST NAME) calling from QSA Research on behalf of the Northern Virginia Transportation Authority, a group of public officials that makes decisions about transportation spending. They have asked us to conduct a survey to give residents like you a voice in some important decisions about transportation improvements and methods for funding them.

If Necessary

- The survey averages about 10 minutes.
- The survey is a good opportunity for you to have your voice heard by public officials who decide which transportation projects to fund and how to pay for them.
- We are not selling anything or raising funds for any organization. We only want your opinions.
- Your answers will be used for statistical purposes only. You will never be identified as a respondent.

Screening Questions

S-1 We are surveying only certain areas in Northern Virginia. In what county or independent city is your home located? (READ LIST.)

The next few questions are about more general types of transportation projects.

12 I am going to read a list of general types of transportation improvements. After I finish, please tell me which one of these transportation improvements is most important to you? READ LIST. RANDOMIZE. ACCEPT ONLY ONE RESPONSE.

12A And which one of these transportation improvements is the second most important to you? READ LIST AGAIN IF NECESSARY. ACCEPT ONLY ONE RESPONSE.

HOT Lanes

- 15 HOT lanes are HOV lanes that are open to people driving alone if they pay
 an extra toll. The amount of the toll would vary and would be highest
 when traffic is heavy so that everyone who pays a toll or is carpooling or
 taking a bus would be guaranteed that there will be no delays due to traffic
 congestion. Would you favor or oppose building these types of HOT
 lanes?

Now we are going to talk about methods for funding transportation improvements in Northern Virginia. The State of Virginia does not have the funds to pay for many of the transportation improvements that we have been talking about unless it finds new sources of funds.

I am going to read you a list of three different ways that the state could raise funds. Each of these sources would raise the same amount of money for transportation improvements in Northern Virginia.
