

# Project Description Form — 9C

## Basic Project Information

- 1. **Submitting Agency:**  
Fairfax County
- 2. **Project Title:** West Ox Bus Garage Phase II
- 3. **Project Type:**  
 Roadway    Multimodal    Transit
- 4. **Project Description/Scope:** This project expands the capacity of the West Ox facility and allows for additional Fairfax Connector service. This funding would allow the project to proceed to construction of 9 maintenance bays and expanded facilities for bus drivers and security.
- 5. **Route (if applicable)/Corridor:**  
Corridor 9
- 6. **Total Project Cost:** \$20,000,000
- 7. **Total Funds Required:** \$17,000,000
- 8. **Phase/s of Project Covered by Funding:** Construction

- 9. **Project Milestones (by phase, include all phases):**
  - Conceptual design is complete, currently negotiating contract for final design.
  - Design Start: FY 2013, currently underway
  - Design Complete: late FY 2014
  - Construction Start: FY 2015
  - Construction Complete: FY 2017
- 10. **In TransAction 2040 plan?**  
 Yes    No  
 Supports Connector Bus Service Expansion, which is in Transaction 2040
- 11. **In CLRP, TIP or Air Quality Neutral?**  
No.
- 12. **Leverages Sources:**  
 Local    State    Federal  
 Other (*please explain*)  
 Design funded with \$3,000,000 in C & I Revenues

# Stated Benefits

- 1. What regional benefit/s does this project offer?** By expanding the capacity of the West Ox Bus Garage, this project would provide additional transit service as well as maintenance facilities. The Connector bus not only provides transit options across Fairfax County, but it also facilitates connections to other transit facilities in the region, including Metrorail and air (Dulles International Airport).
- 2. How does the project reduce congestion?** By expanding facilities for the transit system, reduces single-occupant vehicle travel on regional roadways.
- 3. How does the project increase capacity?** (*Mass transit projects only*) By providing additional storage and maintenance facilities, the project will increase bus service and expand route coverage.
- 4. How does the project improve auto and pedestrian safety?** By expanding transit system capacity, reduces single-occupant vehicle travel on regional roadways, which increases both vehicular and pedestrian safety.
- 5. List internet address/link to any additional information or documentation in support of project benefits.** (*Optional*)

The project is included in the Fairfax County Transit Development Plan:  
<http://www.fairfaxcounty.gov/fcdot/tdp.htm>

Transaction 2040 and the CLRP include bus service expansion, which will require additional capacity at the West Ox Bus Garage.
