

Northern Virginia Transportation Authority
The Authority for Transportation in Northern Virginia

FINANCE COMMITTEE
Thursday November 21, 2019 – 1:00 PM
3040 Williams Drive, Suite 200
Fairfax, VA 22031

AGENDA

- I. Call to Order/Welcome** Mayor Parrish, Chairman
- II. Summary Minutes of the October 17, 2019 Meeting**
Recommended Action: Approval [with abstentions from those who were not present]

Presentation

- III. NVTA Community Bank Program** Mr. Stavros, Investment and Debt Manager
Ms. Anna McDonald, United Bank

Information/Discussion Items

- IV. Policy 29 Status Report** Mr. Longhi, CFO
- V. Financial Activities Report** Mr. Longhi, CFO
- VI. Investment Portfolio Report** Mr. Stavros, Investment & Debt Manager
- VII. Monthly Revenue Report** Mr. Longhi, CFO
- VIII. Operating Budget Report** Mr. Longhi, CFO

Adjournment

- IX. Adjournment**

Next Scheduled Meeting December 19, 2019 at 1:00PM (Room B)
or January 16, 2020 at 1:00PM (Room B)
3040 Williams Drive, Suite 200, Fairfax, Virginia

Northern Virginia Transportation Authority

The Authority for Transportation in Northern Virginia

II.

FINANCE COMMITTEE
Thursday October 17, 2019 – 1:00 PM
3040 Williams Drive, Suite 200
Fairfax, VA 22031

MEETING SUMMARY

I. Call to Order/Welcome

- Chairman Parrish called the meeting to order at 1:07 PM.
- Attendees:
 - ✓ Authority Members: Mayor Parrish, Chairman Nohe (Arrived 1:15 PM); Chairman Bulova; Mayor Rishell, Mayor Wilson (Arrived 1:25 PM);
 - ✓ Other Authority Members: Board Member Cristol
 - ✓ Staff: Monica Backmon (Executive Director); Michael Longhi (CFO); Richard Stavros (Investment & Debt Manager); Peggy Teal (Assistant Finance Officer); Dev Priya Sen (Financial Analyst)
 - ✓ Council of Counsels: Ellen Posner (Fairfax County – Department of Transportation); Rob Dickerson (Prince William County)
 - ✓ Other Attendees: Michael Garber (PBMares, L.L.P); Tarrence Moorner (Alexandria); Rich Roisman (Arlington County); Penny Newquist (Loudoun); Sarah Sade (Loudoun); Jessica Futrell (Loudoun); Noelle Dominguez (Fairfax County)

II. Summary Minutes of the September 19, 2019 Meeting

- Mayor Rishell moved approval of the minutes of the meeting; seconded by Chairman Bulova. Motion carried unanimously

Action Items

III. FY2019 Financial Statement and Compliance Audit

Mr. Garber, PBMares, LLP

- Mr. Garber presented the FY2019 Draft Financial and Compliance Reports, noting the Authority received an unmodified (clean) audit opinion.
- Additionally, Mr. Garber noted (highlighting the second of the two-part audit opinion issued) that the Authority's internal control and compliance standards received an unmodified (clean) audit opinion.
- Mr. Garber presented a second report, the Independent Audit Report to Authority Board Members, reviewing various sections of both reports.
- Mr. Garber drew the Board's attention to the Regional Revenue Fund, highlighting the report showing effectively all funds are restricted to transportation projects already approved by the Authority.
- Mayor Parrish noted the importance of communicating the point to the Commonwealth's collective leadership in Richmond and in jurisdictions that these monies are committed to

transportation projects. Mayor Parrish thanked Mr. Garber for pointing out this information specifically.

- Mr. Garber noted significant work had been done in adopting various GASB standards this year. Mr. Garber thanked Ms. Teal and the finance team for doing a great job in employing the new GASB standards in the financial statements.
- Chairman Bulova moved the Finance Committee recommend Authority acceptance of the draft Northern Virginia Transportation Authority Financial and Compliance Audit Reports and Independent Audit Report to Authority Board Members for the fiscal year ended June 30, 2019, seconded by Mayor Rishell. Motion carried unanimously.

IV. Revisions to Policy 19 – Local Distribution (30% Funds)

Mr. Longhi, CFO

- Mr. Longhi discussed revisions to Policy 19 – which is the policy for the distribution of 30 percent funds. The revisions were necessary as part of the implementation of two new bills (SB1468 and SB1716).
- Noting the policy had not been updated since adoption in 2014, Mr. Longhi highlighted other changes in the language that were needed, such as reflecting NVTA’s loss of the grantors and TOT taxes in 2018, as well as improving the clarity of the language of the annual certification process.
- The biggest change to the policy, Mr. Longhi noted, was that the Authority would distribute the SB1716 funds effectively in the same manner as monthly sales tax, whereas if the jurisdiction received 20% of sales tax it would receive 20% of the new funding.
- Mr. Longhi added this policy was the result of several consultations with RJACC to consider various approaches, where NVTA presented historical analysis that showed no material difference between monthly and annual distributions.
- Mr. Longhi added that the policy changes were coordinated with the Council of Counsels and Bond Counsel as well as the Authority’s Financial Advisor, PFM.
- Calling for a motion, Mayor Parrish noted that it was appropriate that NVTA allowed stakeholders to review the proposed changes amongst various groups, as ultimately the Finance Committee has to make a recommendation to the Authority.
- Chairman Bulova moved approval; seconded by Mayor Rishell. Motion carried unanimously.

V. Revisions to Policy 20 – Regional Revenue (70% Funds)

Mr. Longhi, CFO

- Mr. Longhi noted that the background for the policy modifications is the same for Policy 20 as for Policy 19, which are necessary as part of the same two bills (SB1468 and SB1716).
 - ✓ Specifically, the Policy 20 revisions are a result of SB1468, which provides the Authority flexibility to pay operating and administrative expenses through assessments to member jurisdictions or via a transfer from the Regional Revenue Fund (70% Revenues).
 - ✓ In consultation with Council of Counsels, Bond Counsel and NVTA’s Financial Adviser, Mr. Longhi noted, the wording presented is consistent with NVTA’s

master bond indenture, and captured the fact that the additional funds from SB1716 (I-81 funds) are not bondable.

- ✓ Mayor Parrish asked if the funds need to be separately reported?
- ✓ In response, Mr. Longhi noted that as a result of the SB1716 (I-81) funds not being bondable, those monies will have to be accounted for separately and presented separately in the Financial Statements.
- Mayor Rishell moved approval; seconded by Chairman Nohe. Motion carried unanimously.

Information/Discussion Items

VI. Project Reimbursement Parameters

Mr. Longhi, CFO

- Mr. Longhi presented a study proposal to provide clarity and transparency on Regional Revenue Funds project reimbursements related to direct and indirect costs. The study is to be completed in six months with periodic updates to the Finance Committee.
 - ✓ Mr. Longhi noted some jurisdictions are submitting reimbursements for wages with additional costs added on ranging from 15% to 127%.
 - ✓ Some of these reimbursement requests have included previously deferred pension contributions, overtime, and for non-productive times such as sick leave, vacation and holiday pay.
 - ✓ The goal of the study, Mr. Longhi added, is to provide a transparent, consistent standard for all the jurisdictions.
 - ✓ Mayor Wilson asked if there is a consistent federal or state approach, and if there is a dominant approach?
 - ✓ In response, Mr. Longhi answered that NVT A has done spot research over the years for practices employed by state and federal transportation funding organizations, but no consistent, definitive or dominant guidance has been found to-date.
 - ✓ Mr. Longhi observed that standards for reimbursement vary widely because there are very few entities like the Authority.
 - ✓ The study would work with federal and state agencies as well as RJACC.
 - ✓ Mayor Wilson noted that given the diversity of funding sources that many projects use, NVT A should have a consistent standard.
 - ✓ Chairman Bulova thanked the NVT A finance staff for bringing the proposal forward.

VII. Policy 29 Status Report - Update

Mr. Longhi, CFO

- In an update to the September Policy 29 Status Report, Mr. Longhi stated that no new projects had been identified for Policy 29 non-compliance.
 - ✓ With respect to Arlington County, Mr. Longhi noted the County had put more local money into the project (Ballston Metrorail West Entrance). However, the cost of the project grew larger than the contribution, which has resulted in a continued funding deficit.
 - ✓ Mr. Longhi noted the project is on a trajectory that could result in NVT A staff making a project cancellation recommendation in November. Arlington County requested additional time before the staff recommendation.

- ✓ Board Member Cristol clarified that the status of the award that is in non-compliance of Policy 29 is not for the project funding but rather \$12 million for the design of the project. Board Member Cristol asked if Policy 29 requires a project to show how it will be funded for its next phase in order to be in compliance.
- ✓ Mr. Longhi answered that the project originally landed on the list because it had not spent down the \$12 million in funding substantively.
- ✓ Board Member Cristol acknowledged that Arlington County was non-compliant and noted the County was in the process of identifying funding that would bring the project out of non-compliance.
- ✓ Mr. Longhi responded that what NVTA has done with other jurisdictions in non-compliance of Policy 29 was to establish a path forward to project completion. Using Herndon as an example, Mr. Longhi noted the Town came forward with very aggressive project schedules to make up for lapsed time.
- ✓ The Town also came forward with their project partner VDOT (Virginia Department of Transportation) with a clear commitment that they had the resources, capability and willingness to move through an accelerated project, Mr. Longhi added.
- ✓ Mr. Longhi noted that the Town made clear that they would not request any additional funding from the Authority to resolve the issues with the project.
- ✓ Ms. Backmon noted that when reviewing the Arlington County project the NVTA staff considered the worst-case scenario, whether the project was still viable if the Authority took action to cancel the \$12 million, and could the project still make its recently advanced timelines given the lack of full funding for construction.
- ✓ Board Member Cristol noted that the challenge to the project is that the County needs the funding for the design, which cannot advance without the \$12 million. Board Member Cristol reiterated the County's commitment to exit Policy 29 and follow the needed progress on the project, as well as solidifying construction commitments.
- ✓ Referring to the Herndon-VDOT example, Board Member Cristol asked, absent WMATA signing an agreement putting the project in its Capital Improvement Program, what commitment would be required in a letter from WMATA?
- ✓ Mr. Longhi responded that WMATA would need to indicate that it could support the entire project schedule as identified by the County.
- ✓ Mr. Longhi repeated NVTA's concern that WMATA has indicated that the Silverline Phase 2, Potomac Yards, Safe Track and other projects in Virginia are their top priority.
- ✓ And while in early conversations the County had indicated that it had taken over control over the project, Mr. Longhi noted, significant engineering and complex construction challenges specific to the Ballston Station would require WMATA's review and involvement to complete the project.
- ✓ Chairman Nohe noted that the issue for the NVTA is if the Design is funded but WMATA or another institution does not fund the construction, then what happens to the Authority's \$12 million dollars spent for Design.
- ✓ Chairman Nohe added that the construction of the 2nd entrance is what provides congestion relief, not the design of the project.

- ✓ Mayor Rishell asked what level of oversight is implied by the word “support” in letters (referenced by Board Member Cristol) between WMATA and Arlington.
- ✓ Ms. Backmon answered that the letter from WMATA needs to state that WMATA can support the project timeline.
- ✓ Ms. Backmon further reiterated NVTA’s concern is that with so many other priorities, can WMATA commit to the project schedule that the County has identified.
- ✓ Board Member Cristol noted that the County had been explicit with WMATA and received their agreement to provide the following; 1) some design support, 2) some operational support, and oversight and review of Arlington’s contractor. Board Member Cristol added that the oversight would be supervisory in nature, and the County would be leading the project.
- ✓ With respect to WMATA’s CIP, Board Member Cristol stated that WMATA could not make the commitment of putting the project in its CIP until there is a project coordination agreement, which is contingent on the Design funding.
- ✓ Ms. Backmon added that NVTA staff met with the County and DRPT, which also has Smart Scale funding on the project, to find the best path forward.
- ✓ Mayor Parrish noted that the expectation is that staff will continue to work on these projects and report next month.

VIII. Investment Portfolio Report

Mr. Stavros, Investment & Debt Manager

- Mr. Stavros gave a report and comments on NVTA’s current investment activity and performance, and affirmed the portfolio was in compliance with the Investment Policy, and the investments were acquired on the basis of safety, liquidity and yield.
- Mr. Stavros highlighted page 4 of the report, where NVTA conducted a special year-to-date analysis to evaluate how NVTA’s portfolio had fared against its benchmarks in what has become a more challenging rate environment in the wake of two Federal Reserve rate cuts.
 - ✓ Mr. Stavros reported that NVTA had been able to preserve value and had outperformed its benchmarks over the last six months (March-to-September 2019).
 - ✓ Quantifying the value, NVTA took an average of its four benchmarks (Fed Funds, T-Bill 90, LGIP, VASNAP) and found the difference between NVTA’s yield (2.46%) and the average of the 4 benchmarks (2.11%) was 35 basis points.
 - ✓ As such, NVTA preserved \$1.75 million in income over the six-month period, compared with had the portfolio followed the downward trend of the benchmarks. The performance was attributed to steps taken earlier in the year to increase safety and yield through purchasing U.S. Treasuries.
 - ✓ Mr. Stavros stressed that over time the portfolio performance will move (decline) with the market.
 - ✓ Conversely, if the current trend in falling rates were to reverse, Mr. Stavros added, the portfolio has sufficient liquidity to take advantage of new, higher rate investment opportunities, though current forecasts call for more rate declines.

IX. Monthly Revenue Report

Mr. Longhi, CFO

- Mr. Longhi reported the initial receipt of funds from sales tax, SB1716 and Wayfair out-of-state internet sales.
 - ✓ With respect to its largest funding source, sales tax, Mr. Longhi noted Mr. Stavros would initiate the regional revenue estimate process in November.
 - ✓ Mr. Longhi noted NVTA's has had an effective collaborative effort with jurisdictions on forecasting sales tax, and noted the Authority's own in-house sales tax estimation process has also been very precise.
 - ✓ However, Mr. Longhi noted that NVTA would be seeking more guidance from jurisdictions on the impact of the Internet sales tax and noted there is no local experience on SB1716 funds.
 - ✓ With respect to the SB1716 funds, Mr. Longhi discussed that revenues had not been on a positive trend. Noting the Commonwealth gave guidance that NVTA would receive \$9 million in the first year, Mr. Longhi highlighted the revenues to-date (four months into the fiscal year) appear to be far short of those projections using a straight-line calculation revenue to date should be \$3 million averaging \$750,000 per month. Actual revenue received is under \$500,000 for four months.
 - ✓ Overall guidance from the Commonwealth projects the SB1716 revenues at \$9 million in the first year, \$13 million in the second, and \$20 million in the third. Mr. Longhi added that NVTA would reach out to the Commonwealth for additional information on potential processing delays or other causes.
 - ✓ Mr. Longhi noted his hope that the funding from SB1716 is clarified in the next few months as NVTA staff will be working on PayGo calculations to present to the Finance Committee.

X. Operating Budget Report

Mr. Longhi, CFO

- The Committee received a report and was briefed on the Authority's Operating Budget.

Meeting Adjourned: 2:15 PM
Next Meeting November 21, 2019

NORTHERN VIRGINIA TRANSPORTATION AUTHORITY

MEMORANDUM

FOR: Chairman Parrish and Members of the NVTA Finance Committee

FROM: Michael Longhi, Chief Financial Officer

DATE: November 15, 2019

SUBJECT: Policy 29 - Project Activation, Monitoring and De-Appropriation, November 2019 Status Report

1. **Purpose:** To update the Northern Virginia Transportation Authority (NVTA) Finance Committee on the status of project compliance with Policy 29 - Project Activation, Monitoring and De-Appropriation for November 2019.
2. **Background:** No new projects have been identified for Policy 29 discrepancies.
3. **Report Analysis:** Three project sponsors; Arlington County, the Town of Herndon and Fairfax County have reportable project(s) in the attached analysis. To recap the analysis:
 - A. Arlington County has one project out of compliance with Policy 29 (Ballston Metrorail West Entrance). The project status is effectively unchanged from prior reports with:
 - a. An unclear path for additional County funding to close the project funding deficit. On November 7th, County staff reported that they should have more refined cost estimates shortly.
 - b. WMATA commitment to the Arlington project schedule has not been documented. Arlington staff presented a draft WMATA letter which covered the project concerns raised by NVTA staff. It is reported that WMATA staff are reviewing that draft.

Unless the funding issues and WMATA project capacity issue are clarified prior to the next Authority meeting, NVTA staff recommend the project be cancelled. Such cancellation will not preclude a future project application when key issues are addressed.
 - B. Town of Herndon reports continued progress on the projects listed earlier. Significant current progress is reported on clearing legal requirements to proceed with property acquisitions.
 - C. Fairfax County has 12 projects out of compliance with Policy 29. Given the large number of documents received, length of time involved and ongoing revisions required it is taking Authority staff a lengthy time to review due to current

workloads related to regular duties. We are diligently working through the new and revised documents to provide feedback to County staff.

- 4. WMATA Projects:** During the preparation of the Policy 29 analysis, two WMATA projects were reviewed. These projects are Orange Line Traction Power Upgrades and Blue Line Traction Power Upgrades. While not included in the Policy 29 violation analysis, the reviewed raised separate questions related to:
- A. Compliance with NVTA Resolution 14-8.
 - B. Compliance with project scope.
 - C. Internal cost allocations.

WMATA presented a letter on September 18, 2019. NVTA staff responded WMATA's letter on October 22 (attached) and had a conference call with WMATA staff on October 29th.

WMATA staff committed to providing additional information on funding compliance with NVTA resolution 14-8. Additionally, WMATA has categorized the project compliance issues (8 car trains) as a FY2021 budget decision. NVTA staff are reviewing the General Manager's FY2021 Budget Presentation for reference to 8 car trains. Technical issues related to cost allocations were also discussed.

Attachment: Letter to WMATA CFO dated October 22, 2019.

Northern Virginia Transportation Authority
The Authority for Transportation in Northern Virginia

October 22, 2019

VIA Email and First-Class Mail

Dennis Anosike
Chief Financial Officer
Washington Metropolitan Area Transit Authority
600 Fifth Street, NW
Washington DC 20001

Dear Mr. Anosike:

Thank you for your September 18, 2019 letter. As noted below, compliance with NVTA resolution 2014-8 could be determined with additional documentation. Additionally, delivery of eight-car train service appears to be an open issue. Project reimbursement requests are the subject of a NVTA study which will seek to result in parameters being set for all funded projects.

Compliance with NVTA Resolution 2014-8

Thank you for the tables presented in Attachment A to your September 18, 2019 letter. The tables appear to be part of a summary presentation and not actual financial statements. Therefore, they do not substantiate the source category of the funds. To be more specific, are the funds from Maryland (MD) and the District of Columbia (DC) specifically awarded by those jurisdictions to the Blue and Orange Line Traction Power Upgrade Projects, or are they from non-project specific sources attributed to MD and DC?

Delivery of Eight Car Train Service

The scope of the Orange Line Traction Power Upgrades is to enable 100 percent eight car trains. The scope of the of the Blue Line Traction Power Upgrades is to operate eight-car trains on a continuous and consistent basis. Concerns related to the delivery of eight car train service have been raised by reports that WMATA may not be able to commit to such a service level as envisioned in the above project scopes. Your September 18th letter notes the commitment to run 100% eight car trains is part of the FY2021 budget process. NVTA project scopes must reduce congestion. For these two projects, the goal of congestion reduction is achieved through the deployment of eight-car trains.

Project Reimbursement Requests

As noted in your letter, project reimbursements have been suspended as NVTA staff reviewed specific charges and cost allocations. Many of the WMATA cost allocations appear to be based upon a Federal Transit Administration (FTA) process related to indirect cost rates and fringe

benefit calculation methods. When taken as a percent, both of the FTA rates are not comparable to what we are seeing requested from other project sponsors. While the FTA information is a data point, it is not definitive guidance for expenditure reimbursements related to the use of NVTAs funds. NVTAs is embarking on a formal study on these issues which will be inclusive guidance for all Regional Revenue Fund (70%) projects. Progress on this study will be discussed at the Regional Jurisdiction and Agency Coordinating Committee meetings which WMATA representatives regularly attend.

We appreciate the WMATA staff time and look forward to continuing to work through these items, not only with WMATA but also NVTAs regional jurisdictions as well as other transit agencies.

Sincerely,

Michael Longhi
Chief Financial Officer

November 14, 2019

Ms. Monica Backmon
Executive Director
Northern Virginia Transportation Authority (NVTA)
3040 Williams Drive, Suite 200
Fairfax, VA 22031

Ms. Jennifer Mitchell
Director
Virginia Department of Rail and Public Transportation (DRPT)
600 East Main Street, Suite 2102
Richmond, VA 23219

Dear Ms. Backmon and Ms. Mitchell:

I am writing to reaffirm Arlington County's commitment to its Ballston-MU Metrorail Station West Entrance project. Expansion of the Ballston-MU Metrorail Station provides increased access to transit for our community and the local and regional bus networks. It also provides a much-needed expansion of emergency egress and increased accessibility to the station under the Americans with Disabilities Act of 1990 (ADA).

The project has been delayed because it was tied to a site plan that had included a requirement for the developer to design and construct a portion of the West Entrance. In March 2019, the County Board approved a site plan amendment to remove the developer's obligation to the West Entrance project. This amendment also included an easement from the property owner to the County providing the right-of-way which will allow the County to construct an elevator connecting the street to the mezzanine. The amendment means the County may advance the project independent of site redevelopment. Since ownership of Fairfax Drive was transferred from the Commonwealth to the County in July 2018, the County is now fully in control of advancing this project. The County has a contract in place with STV to update the previous Ballston-MU Metrorail West Entrance 35 percent design documents to current Washington Metropolitan Area Transit Authority (WMATA) standards and provide the bridging documents which will allow the project to progress to a design-build procurement.

On September 9, 2019, our County Manager received a letter from WMATA General Manager and Chief Executive Officer Paul Wiedefeld committing WMATA to support the County's Ballston-MU Metrorail Station West Entrance project through design, construction, and commissioning. County staff is currently working with WMATA on the project Design Support Agreement, which we anticipate will be finalized before the end of this calendar year. We anticipate executing a Project Coordination Agreement with WMATA during the first half of calendar year 2020, followed closely by inclusion of the project in the WMATA Capital Improvement Plan (CIP).

Through this letter, the County will join the NVTA, the Commonwealth, and private developers as a funding partner on this important project. We have identified \$25.5 million in local funding that will be programmed to the Ballston-MU Metrorail Station West Entrance during the FY 2021 – FY 2030 update to our CIP, which is now in process and will be formally adopted in July 2020. We also anticipate an application for FY 2021 DRPT Transit Capital funding, as was directed by DRPT staff. This application will be coupled with an application for funding as part of the NVTA FY 2024 – FY 2025 Six Year Program update. In addition, at the County Board's November 16 meeting, we will be considering for approval a formal resolution that mirrors our commitments made in this letter and the importance of this project which will be forwarded separately once approved.

We look forward to working together as funding partners to deliver a vital regional addition to the transportation network. We appreciate your support and are grateful for your patience as we have worked to lay the groundwork for a path forward in Ballston.

Sincerely,

A handwritten signature in black ink that reads "Christian Dorsey". The signature is written in a cursive style with a large, stylized "D" and "S".

Christian Dorsey, Chair
Arlington County Board

October 25, 2019

Mr. Mark Schwartz
County Manager
Arlington County
2100 Clarendon Boulevard, Suite 302
Arlington, VA 22201

Dear Mr. Schwartz,

Thank you for Arlington County's ("the County") commitment to the station improvement project at Ballston. Metro supports the County's vision of improved transit access and further strengthening the transit-focused neighborhood centered around the Ballston Metrorail station and is committed to partnering with the County to advance the Ballston West Entrance project through completion and becoming part of the Metrorail system.

Metro's commitment to the Ballston West Entrance project is directly linked to the project schedule that the County has included in its current project funding application to the Northern Virginia Transportation Authority (NVTA) for the Fiscal Year (FY) 2024 – FY 2025 Six Year Program (SYP) Update. That schedule specifies that project construction will be completed in April 2025, Metro acceptance and testing completed in June 2025, and remaining punch list items completed in early FY 2026. Metro is committed to providing the necessary staff and other resources to the Ballston West project to allow the County to maintain the project schedule contained in their NVTA application. Metro will honor this commitment to Ballston West even in the face of our existing commitments to other major system capital improvements in Northern Virginia, such as the Silver Line, Phase 2, the Potomac Yards station, as well as our regional, system-wide State of Good Repair activities.

Commented [RR1]: Struck per agreement between Board Member Cristal and NVTA Executive Director Monica Backmon.

Given our intent to jointly advance the project, I have directed staff to continue to work with the County to complete preliminary engineering and development and evaluation work and finalize a mutually agreeable Project Coordination Agreement (PCA). This agreement will establish the project scope as well as roles and responsibilities for project costs, schedule, design and implementation. I believe this agreement can be developed promptly. We will then request Metro Board authorization to execute the PCA and add the Ballston West Entrance project to Metro's Capital Improvement Program (CIP).

Thank you and we look forward to working with you to deliver this project.

Sincerely,

Paul J. Wiedefeld
General Manager and Chief Executive Officer

Maryland and Virginia
Transit Partnership*

July 23, 2019

Mr. Dennis Leach
Director of Transportation
Arlington County
2100 Clarendon Boulevard, Suite 900
Arlington, VA 22201

Dear Mr. Leach,

Thank you for your interest in advancing station improvements at several Metrorail stations in Arlington County ("County"). In response to your June 26, 2019 letter, below is an update on the projects you referenced.

As you know, our respective staffs have been coordinating on the planning and design of these projects for several years. As noted in our letter last year, projects must advance through Metro's capital program development and evaluation processes before proceeding to programming and implementation. Once completed, adding these projects into WMATA's Capital Improvement Program requires written confirmation that the sponsor jurisdiction intends to convey funds to WMATA for project purposes, typically through a Project Coordination Agreement (PCA). In addition, this agreement typically establishes the project scope as well as roles and responsibilities for project costs, schedule, design and implementation. We are eager to progress discussions on the Crystal City East Entrance project and look forward to meeting with you and your staff this week to advance these agreements.

Below is a summary of the current status of each project:

- **Crystal City East Entrance:** This project is in WMATA's Development and Evaluation (D&E) phase. Work is ongoing to update the final report to address the County's comments. This work will be completed by mid-September.
- **Court House Second Elevator:** The engineering feasibility study for the second elevator was completed in 2017.
- **Ballston West Entrance:** Metro staff is working with the County to initiate the update of the 35 percent design drawings which were completed in 2005. This work will need to be updated and will also need to include reviews for constructability, operational impacts and operational costs through WMATA's D&E process.
- **Pentagon City Second Elevator:** The 100% design documentation is nearly complete.

Mr. Dennis Leach
Page 2

- **Ballston Multimodal:** The project is essentially a street infrastructure project and does not impact the Ballston Metro Station. WMATA will coordinate with the County as needed as an adjacent project, but we do not anticipate that this project will be included in WMATA's CIP.
- **East Falls Church Bus Bays:** A planning study evaluating options to add new bus bay(s) was completed in 2013. We understand the County is reevaluating the design options identified in the study and may want to consider new options or refinements to the existing options.

We appreciate the strong partnership with the County and look forward to continuing to work together to advance these station projects.

Sincerely,

Thomas J. Webster
Executive Vice President
Capital Planning and Program Management

DEPARTMENT OF ENVIRONMENTAL SERVICES

Division of Transportation

2100 Clarendon Boulevard, Suite 900, Arlington, VA 22201

June 26, 2019

Mr. Thomas J. Webster
Chief, Capital Planning and Program Management
Washington Metropolitan Area Transit Authority (WMATA)
600 5th Street, NW
Washington, DC 20001

Dear Mr. Webster,

This letter is a follow up to Paul Wiedefeld's letter to Arlington County Manager Mark Schwartz dated May 8, 2018. I am writing to request that three Arlington County projects be added as reimbursables to WMATA's FY20-25 Capital Improvement Plan (CIP): 1) Crystal City Metro Station East Entrance, 2) Court House Metro Station Second Elevator, and 3) Ballston Metro Station West Entrance. The Ballston West Entrance was included in WMATA's CIP from FY06 to FY13. My staff have also been working with WMATA to develop project agreements for that project and the Crystal City East Entrance since the May letter from Mr. Wiedefeld. I am also asking you to confirm that these projects have completed WMATA's Development & Evaluation (D&E) process. As you are aware, Arlington requested that D&E be completed under WMATA's FY19 Project Development Program.

In addition, I am asking for detailed CIP information from WMATA on three other County station projects that are ongoing or anticipated to begin construction in the FY20-25 CIP: 1) Pentagon City Station Second Elevator, 2) Ballston Multimodal Project, and 3) East Falls Church Bus Bay Expansion.

All six projects are included in Arlington County's adopted FY19-28 Capital Improvement Program (CIP). The Crystal City East Entrance was approved for \$82.5 million in funding in the Virginia Department of Transportation (VDOT) and Department of Rail and Public Transportation (DRPT) Six Year Improvement Program (SYIP) on June 19, 2019. These monies, in addition to \$5 million from the Northern Virginia Transportation Authority (NVTA) and \$6 million in other County funding, fully fund the project. The Ballston West Entrance was approved for \$12 million in NVTA funding in 2016, \$10 million in Virginia Smart Scale funding 2017, and previously approved for \$2 million in DRPT funding, \$15 million in developer funding, and \$1 million in other funding.

Arlington has always been a strong partner with WMATA, successfully delivering station improvement projects to the riding public. Arlington has the second highest Metrorail ridership of any jurisdiction other than the District of Columbia and over half of Northern Virginia's Metrorail ridership.

If WMATA does not act to add these important projects to your FY20-25 CIP, the funding described above will be at risk. Feel free to contact Lynn Rivers at (703) 228-7929 or lrivers@arlingtonva.us if you wish to discuss.

Sincerely,

Dennis Leach
Director of Transportation

May 8, 2018

Mark Schwartz
Arlington County Manager
2100 Clarendon Boulevard, Suite 302
Arlington, VA 22201

Dear Mr. Schwartz:

I want to thank you for your proposed approach to advancing three Arlington County station projects: the Crystal City Metro Station East Entrance, a second elevator at the Court House Metro Station and a West Entrance at Ballston Metro Station. As I know that there is a strong interest in moving forward with the projects, I am writing to provide a status report.

First, before proceeding to decision stages, I need to emphasize that all three projects must advance through Metro's capital program development and prioritization processes. WMATA staff is working closely with yours to specify the requirements for the Development and Evaluation (D&E) stage (see enclosed checklist), which allows for final project decisions. WMATA staff and County staff have been collaborating regularly to ensure clarity about the D&E requirements and to move expeditiously and efficiently to complete these requirements.

Once these projects have advanced through D&E, WMATA will be in a better position to either advance the projects for WMATA Board consideration and approval to move forward or to recommend deferral of the projects based on evaluations of criticality, timing, construction sequencing, priority, or other business rationales.

WMATA's current outlook for each project is summarized below:

- **Crystal City East Entrance:** WMATA concurs that the developer should lead the design and Phase 1 construction in coordination with WMATA and the County with a three party agreement. This allows the work to be completed in conjunction with the development project and will have limited disruption to WMATA customers. WMATA is prepared to work with the County and the developer to negotiate a Project Coordination Agreement (PCA) for Phase 1 as an adjacent construction project.

WMATA staff will advance project development for Phase 2 of the project which will enable the developer to begin the preliminary engineering. Advancing Phase 2 beyond preliminary engineering will be subject to evaluation and prioritization of the project. WMATA will need to consider the ongoing operating costs and lifecycle rehabilitation costs associated with Phase 2 of this project as well as the state of good repair and safety work that is our top priority.

Mark Schwartz
Page 2

- **Court House Second Elevator:** Subject to completion of the D&E and Board of Directors approval, WMATA is supportive of this project on the condition that Arlington County lead the design, environmental clearances, outreach, and public involvement. This approach will help to accelerate the project given the current capital program priorities and project management commitments of WMATA. Later this month, WMATA staff will begin the Project Development Stage. WMATA is ready to engage in developing a PCA as an adjacent construction project if the County concurs with WMATA's proposed approach. As we have previously discussed with Arlington staff, Arlington County will provide the required bus bridge and any supplemental O&M costs directly related to the construction during the project.
- **Ballston West Entrance:** WMATA supports Arlington County taking the lead in advancing the project development work in coordination with WMATA. However, WMATA is not committing to moving forward with this project beyond the completion of preliminary engineering. At the completion of revised preliminary engineering, the project should be submitted to WMATA's Capital Planning Advisory Committee (CPAC) for review and scoring. Similar to the Crystal City East Entrance, WMATA will need to consider this project in light of ongoing operating costs, lifecycle rehabilitation costs, and the ongoing state of good repair and safety work that is our top priority.

Thank you and we look forward to continuing to work together and coming to a coordinated and regionally supported decision.

Sincerely,

Paul J. Wiedefeld
General Manager and
Chief Executive Officer

Development and Evaluation Work

Development and Evaluation work for Metrorail stations includes:

1. Statement of Need
2. Demand Assessment
3. Development and evaluation of alternatives
4. Selection of a preferred option
5. Engineering and architectural assessment
6. Constructability assessment
7. Environmental scan
8. Egress analysis
9. Cost estimates (Capital and O&M)
10. Operational impacts (staffing, track access, costs)
11. Risk Assessment
12. Development of initial scope and schedule
13. Stakeholder coordination

NORTHERN VIRGINIA TRANSPORTATION AUTHORITY**MEMORANDUM**

FOR: Chairman Parrish and Members of the NVTA Finance Committee

FROM: Michael Longhi, Chief Financial Officer

DATE: November 15, 2019

SUBJECT: Financial Activities Report - November

1. Purpose: To update the Northern Virginia Transportation Authority (NVTA) Finance Committee on various topics not otherwise addressed in the November 2019 agenda.

1. Discussion:

A. FY 2021 Operating, Regional Revenue, Local Distribution Budget Guidance

Preparation. NVTA staff expect to present the first budget guidance Discussion Item to the Finance Committee in January 2020.

B. Revenue Estimate Update. The revenue estimate update process started in November. The process will confirm existing estimates, with an additional focus on the increase in Sales Tax related to internet and other remote sales. The revenue estimate process will feed in an update of the PayGo analysis for the Two-Year Program Update.

C. SB1716 Revenue Shortfall. Inquiries have been made as to the rationale for the actual revenue received through SB1716 falling dramatically short of the Commonwealth's projections. Follow up discussions will occur as needed to clarify the expected revenue levels. This effort supports the PayGo analysis.

D. TransAction Contract Amendments 4 and 5. The two contract amendments approved by the Authority were based on estimated final costs. Those costs have now been finalized and are within the approved TransAction budget. Since the costs are within budget no additional Committee or Authority action is required. The final costs and basis are:

i. **Amendment 4 - Technical Analysis Services.** This amendment supports the technical analysis for the FY2024/25 Two Year Update to the Six Year Program related to congestion reduction estimates, TransAction project ratings and long-term benefits analysis.

a. Technical Analysis Cost. This cost is largely driven by the number and mix (size/complexity/mode) of projects. Thirteen more projects than anticipated

were submitted, with a significantly higher level of size and complexity. This resulted in additional costs of \$22,400.00.

- b. Baseline for Long Term Benefit Analysis. The need to update the TransAction 2040 Baseline for completed projects (23) was identified. This additional cost is \$10,800.00. There was an incremental \$720.00 cost increase due to recently completed projects.
 - c. Final Amendment 4 Costs. The current cost for Amendment 4 is \$155,100. This is \$33,920.00 higher than the original estimate of \$121,180. This amount includes a \$9,000.00 contingency that may not be required.
- ii. **Amendment 5 – Tracking Survey**. In finalizing the 2019 Tracking Survey, the need to include several new questions was identified. These needs were triggered by:
- a. Strategic Plan implementation of a Communications Plan resulting in greater social media components.
 - b. Regional changes for bikes, scooters, the Bus Transformation Project, pricing incentive tradeoffs, housing choice and affordability drivers.
 - c. Including questions related to these issues resulted in a cost increase of \$8,100.00. This moves the base cost for Amendment 5 from \$48,766.00 to \$56,866.00.

NORTHERN VIRGINIA TRANSPORTATION AUTHORITY

MEMORANDUM

TO: Chairman Parrish and Members, NVTA Finance Committee

FROM: Richard Stavros, Investment & Debt Manager

DATE: November 15, 2019

SUBJECT: Investment Portfolio Report

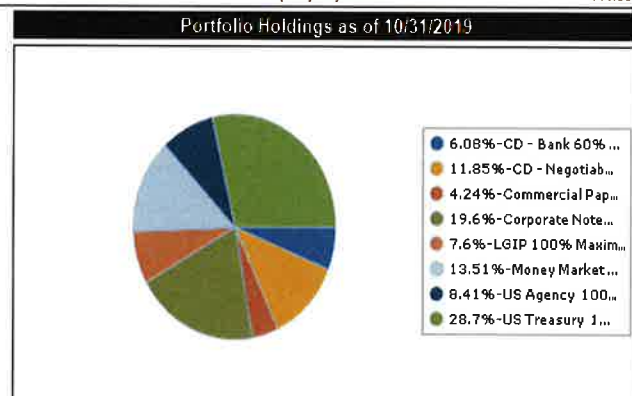

- 1) **Purpose:** To provide the Northern Virginia Transportation Authority (NVTA) Finance Committee with required reports on investment activities and portfolio performance through October 31, 2019.
- 2) **Background:** This report is on investment activity through October 2019 and affirms the portfolio investments were acquired on the basis of safety, liquidity and then yield. This report summarizes the portfolio structure, and adherence to the NVTA Investment Policy.

Northern Virginia Transportation Authority Distribution by Asset Category - Book Value Report Group: Regional Revenue

Begin Date: 9/30/2019, End Date: 10/31/2019

Asset Category Allocation				
Asset Category	Book Value 9/30/2019	% of Portfolio 9/30/2019	Book Value 10/31/2019	% of Portfolio 10/31/2019

6-9 Months	190,125,373.00	18.03	172,257,426.61	16.08
9-12 Months	126,985,257.50	12.04	114,805,715.93	10.72
1-2 Years	135,211,072.72	12.82	95,427,095.79	8.91
2-3 Years	54,264,348.77	5.15	54,256,157.41	5.06
Total / Average	1,054,417,410.70	100.00	1,071,296,671.19	100.00

- b. The liquidity of the portfolio is reflected in the portfolio's duration of .43 (1.0 = 1 year) and the maturity schedule shown above:

NVTA Investment Benchmarks	Oct-19 Month End
Fed Funds Rate	1.83%
Treasury 90 Day T Bill	1.63%
Local Government Investment Pool	2.05%
Virginia Non-Arbitrage Program	2.11%
NVTA Performance	2.40%

Source: Bloomberg, Statements

- c. The yield on the portfolio at the end of October 2019 was 2.40%. The NVTA's Investment Policy specifies the benchmarks shown above for yield performance comparison:

4) Portfolio Analysis & Statistics Overview

a) **Safety:** The portfolio is invested primarily in;

- i) AAA/AA rated U.S. Treasury and Agency Bonds
- ii) AAA/AA rated investment grade corporate bonds
- iii) Collateralized bank money market accounts.

b) **Liquidity:**

- i) Since our last report on October 17, the NVTA Portfolio average duration has fallen to .43 from .51 or less than 6 months – reflecting U.S. Treasury purchases and recent maturities.
- ii) As noted previously, analysis of forward transportation project liabilities (reimbursements) associated with the Six Year Program found that the portfolio has the flexibility to extend modestly to 2-3 year maturities (5.1% of the portfolio presently).

c) **Yield:**

- i) **Third Fed Rate Cut of 2019:** On October 30, the Federal Reserve cut rates for the third time this year, lowering rates by 25 basis points to a range of 1.5% to 1.75% in response to slowing U.S. economic growth. The Fed's target policy is now a total of 75 basis points lower from its first rate cut in mid-summer.
- ii) **Year-to-Date Performance:** In response to the change in rates and economic sentiment, NVTA conducted a review in October 2019 of the portfolio's performance since the beginning of the year as compared to its policy benchmarks as a way to review our rate strategy, see chart below, updated for November.
 - **Value Preservation:** NVTA's Regional Portfolio continues to outperform its benchmarks over the last 7 months. This performance is attributed to steps taken earlier in the year to increase safety by purchasing US Treasuries. Furthermore, more shorter dated portfolio benchmarks have been impacted more severely by the third Fed rate cut, see chart.
 - **Rate Strategy Implications:** While there are still many safe, liquid and fair yielding investments, staff acknowledges that over time NVTA's portfolio performance will move (decline) with the market.

- 5) **Custodian Certification:** BB&T Retirement & Institutional Services is the custodian of all of NVTA's investment purchases and is where all of NVTA's non-deposit investments are held. Deposit type investments are protected through the Commonwealth of Virginia collateralization program or FDIC Insurance.
- 6) **Policy Required Reports:** The attached Compliance - GASB 40 Report addresses specific Investment Policy requirements regarding the purchase and holding of securities. The attached report, documents:
- Compliance – Investment Policy, Summary.** The report shows the percentage of the portfolio by each type of investment.
 - Investment Portfolio – By Maturity Range.** The report shows the yield to maturity, and percentage of the portfolio which each type of investment represents.
 - Portfolio Holdings by Custodian.** This report shows each depository, investment firm or custodian holding NVTA securities or cash.

Attachments: Compliance - GASB 40 Report shows reporting requirements as listed above, and not otherwise presented. This report is also fundamental for the Authority's Annual Financial Statements and annual audit.

NORTHERN VIRGINIA TRANSPORTATION AUTHORITY

MEMORANDUM

FOR: Chairman Parrish and Members of the NVTa Finance Committee

FROM: Michael Longhi, Chief Financial Officer

DATE: November 15, 2019

SUBJECT: Monthly Revenue Report

1. **Purpose:** To update the Northern Virginia Transportation Authority (NVTa) Finance Committee on monthly revenue receipts and 30% funds distributed to member localities.
2. **Background:** The attached reports reflect funding received and distributed through October 2019. October receipts represent two months of FY2020 Sales Tax receipts.
3. **Comments:**
 - a. **FY2020 Revenues (Attachment A)**
 - i. The Authority has received approximately \$47.1 million through the October 2019 transfers from the Commonwealth.
 - ii. Actual revenue (two months of sales tax receipts) to estimate comparison of annual sales tax revenues through October 2019 show a 6.3% positive variance in receipts compared to the FY2020 adopted revenue projections.
 - iii. It is too early in the revenue cycle to rely on the positive variance to be sustained through the remaining 10 months. Monthly receipts will be monitored closely to determine if the increase is attributable to the newly taxed internet sales.
 - iv. Revenue related to Heavy Truck Registration and Diesel Fuel (SB1716) has not materialized at the level expected to support Commonwealth projections for FY2020. However, it is extremely early in the cycle for this first-time revenue source. VDOT is preparing an analysis of the receipts and should be sharing the results before the end of the month.
 - v. Tracking of current fiscal year revenue on an actual to projection basis has been substantially improved through the use of a statistical packet called Palisade's Stat Tools. The tool was previously back tested against prior revenues to confirm its utility and accuracy. Reports from the tool are included in Attachment D.
 - b. **FY2020 Distribution to localities (Attachment B)**
 - i. Seven jurisdictions have completed the required annual HB2313 certification to receive FY2020 Local Distribution Funds (30%). The two remaining jurisdictions have been contacted and are aware of the deadlines.
 - ii. As of October 2019, approximately \$12.4 million of the \$14.3 million of 30% local distribution funds have been distributed to member jurisdictions.

c. FY2015 to FY2020 Year over Year Revenue Comparison (Attachment C).

- i. This chart reflects a month-to-month comparison of sales tax revenue and a year-to-year comparison of fiscal year to date revenues received through October 2019.

Attachments:

- A. Sales Tax Revenues Received Compared to NVTA Estimates, Through October 2019
- B. FY2020 30% Distribution by Jurisdiction, through October 2019
- C. Month to Month Comparison of Sales Tax Revenue and YTD Receipts for October 2015 to 2019
- D. Palisade's Stat Tool Analysis of FY2020 Revenue Actual to Projections

Season (Gamma)	0.000

Winters' Exponential

Mean Abs Err	\$413,151.90
Root Mean Sq Err	\$567,906.18
Mean Abs Per% Err	2.02%

Description:

The Holt-Winters models three aspects of a time series: a typical value (average), a slope (trend) over time, and a cyclical repeating pattern (seasonality). Holt Winters uses exponential smoothing to encode values from the past and use them to predict "typical" values for the present and future.

Original Observations

NORTHERN VIRGINIA TRANSPORTATION AUTHORITY

MEMORANDUM

FOR: Chairman Parrish and Members, NVTA Finance Committee

FROM: Michael Longhi, Chief Financial Officer

DATE: November 15, 2019

SUBJECT: NVTA Operating Budget

1. **Purpose:** To update the Northern Virginia Transportation Authority (NVTA) Finance Committee on the Authority's Operating Budget for FY2020.
2. **Background:** SB1468 (2019) patroned by Senator Black, provides the Authority flexibility to pay operating and administrative expenses through assessments to member jurisdictions or via a transfer from the Regional Revenue Fund (70% revenues). The Authority elected for the FY2020 operating budget to be funded through transfers from the Regional Revenue Fund.
3. **Comments:** Through October 31, 2019, the FY2020 Operating Budget has produced the following results:
 - a. The operating revenue is being funded through quarterly transfers of \$740,948 from the Regional Revenue fund.
 - b. October 2019 represents 33% of the fiscal year. Through October 31, 2019, the Authority has utilized 27% of its FY2020 expenditure budget with all account categories remaining within budget. The lower than budgeted FY2020 expenditures is attributed to the Project Implementation, Monitoring and Management System budget of \$150,232. Invoicing for this system will follow the development and implementation phases.
 - c. The attached statement shows the total operating budget income and expenditure activity for FY2020 through October 31, 2019.

Attachment: FY2020 Operating Budget through October 31, 2019
